

# Madison Seating Supports National Facilities Refresh with Ready-to-Ship Steelcase Leap Chair V2

*Madison Seating offers ready-to-ship Steelcase Leap Chair V2 to help facilities teams streamline national workspace refreshes with speed and consistency.*

NY, UNITED STATES, November 9, 2025 /EINPresswire.com/ -- [Madison Seating](#) announced the

“

Our goal is to make it easier for facilities teams to meet project timelines with reliable, ergonomic seating that’s available when they need it.”

CEO

ready-to-ship availability of the Steelcase Leap Chair V2 to support national, multi-site rollouts as facilities teams modernize workspaces for hybrid work. The initiative focuses on rapid fulfillment, standardized specifications, and enterprise-grade ergonomics, enabling organizations to execute seating programs at scale without missing deadlines.

Madison Seating maintains ready-to-ship stock to support fast timelines. For specifications, current availability, and

enterprise/bulk orders of the Steelcase Leap Chair V2 in black fabric, visit the product page:

<https://www.madisonseating.com/shop/leap-chair-v2-in-black-fabric-by-steelcase/>.

As real estate and workplace leaders complete Q4/Q1 refresh cycles, demand for adjustable, certification-backed seating continues to rise. The Leap Chair V2 is widely recognized for adaptable support, durable construction, and configuration consistency—priorities for procurement and facilities teams coordinating multi-location deployments.

## Built for Facilities at Scale

Large programs succeed when logistics and product consistency align. Madison Seating supports enterprise and public-sector seating initiatives with bulk-ready inventory, staged shipping options, and standardized configurations that help minimize variance across sites. Coordinating at scale also reduces installation friction and simplifies employee onboarding.

## Key Ergonomic Features of Steelcase Leap Chair V2

According to Steelcase product literature, Leap V2 is engineered to support posture changes and

task variety throughout the day. Common configurations include:

- LiveBack back support that flexes to follow the natural movement of the spine.
- Natural Glide recline that helps users stay aligned to their work while leaning back.
- Adjustable lumbar with user-tunable lower-back support.
- 4D arms (height, width, depth, and pivot) to support typing, mousing, and collaboration postures.
- Seat height and depth adjustments for a more individualized fit.
- Flexible seat edge designed to ease pressure on the thighs during longer sessions.

### Sustainability and Indoor Air Quality Considerations

Many Leap V2 configurations are offered with third-party indoor air quality certifications, as noted in manufacturer documentation, aligning with real-estate and sustainability criteria common to modern fit-outs. Organizations prioritizing circularity and long lifecycle products also value the chair's serviceability and parts availability.

### Procurement Made Straightforward

To help facilities leaders move from purchase order to "seat-in-place" quickly, Madison Seating supports:

- Bulk ordering with coordinated, multi-site deliveries.
- Standardized specifications to ensure uniform ergonomics across locations.
- Responsive customer support for scheduling, status updates, and documentation.

### About Madison Seating

Madison Seating supplies premium office seating and workplace furniture to enterprises, SMBs, and home offices across the U.S. The company focuses on quality, availability, and value—supporting rapid deployments, standardized configurations, and service responsive to the needs of facilities and procurement.
