dependable, consistent, and affordable non-medical senior care services. The company's highly trained and rigorously screened caregivers are dedicated to providing compassionate care while preserving the dignity and independence of their clients. Senior Helpers is also nationally recognized as a top workplace for caregivers.

For Sakina and Syed, opening Senior Helpers was more than a business—it was a personal mission inspired by their own caregiving journey. Having cared for aging parents—one living with dementia and another on hospice while battling cancer—they understand the emotional and physical challenges families in the same situation face. The Hyders have been married for 25 years and are proud parents of three children. They are active in their community, volunteering through organized backpack drives, support of senior centers, and helping prepare meals for those in need. They are motivated every day by the opportunity to help older adults remain safe, comfortable, and cared for in their own homes.
