

Paul Davis Restoration Opens New Office Serving Greater Miami

Miami Beach and Hialeah Will be Focus of New Business

MIAMI BEACH, FL, UNITED STATES, November 10, 2025 /

EINPresswire.com/ -- A brother and sister duo with tech and marketing expertise have opened a [Paul Davis Restoration](#) office to serve Greater Miami's restoration needs. Dynamic sibling entrepreneurs Daniela Molano (age 24) and Nicolas Molano (age 27), own and run the new restoration business that serves communities across Greater Miami, including Hialeah, [Miami Beach](#), Doral, Brickell, Miami Lakes, Miami Gardens, Wynwood, and Miami. Just opened in November, this family-run business brings a fresh perspective to the restoration industry, blending innovative technology, strategic marketing, and a deep commitment to compassionate service.

Daniela and Nicholas Molano with their new vehicle

“

My goal is to make sure our community knows who we are and feels they can trust us—not just during a disaster, but before it even happens.”

Daniela Molano

The siblings' father, Andres Molano, is an investor and strategic advisor at Paul Davis Restoration of Miami Beach, a family-led venture. He is an accomplished entrepreneur, investor, and executive coach renowned for his visionary leadership and global impact in the energy sector. As the co-founder and former CEO of an energy services company based in Miami, he transformed a lean start-up into one of the world's foremost providers of fast-track and emergency power generation solutions. With more than two decades of experience leading large-scale disaster relief and crisis response operations across multiple continents, Andres built a distinguished career

helping communities and businesses recover from critical disruptions and restore essential

infrastructure. His deep understanding of emergency logistics, rapid response, and customer service excellence provides a unique perspective in supporting the Paul Davis Restoration mission to rebuild communities after fire, water, storm, or mold damage.

Nicolas Molano, a University of Florida graduate with a background in software engineering and AI consulting, transitioned from the tech world to restoration with a mission to make a tangible impact.

"I wanted to build something meaningful—something that helps people in a real way," said Nicolas. "Paul Davis Restoration stood out as a brand built on integrity and empathy, and I saw an opportunity to bring innovation and purpose into every job we do."

Daniela Molano, who holds a master's in integrated marketing from NYU, brings her expertise in branding, PR, and content strategy to the team. "My goal is to make sure our community knows who we are and feels they can trust us—not just during a disaster, but before it even happens," said Daniela. "We're building something real and long-lasting, together as a family."

Paul Davis Restoration has restored residential and commercial properties damaged by fire, water, mold, storms, and disasters for over five decades. PDR, Inc. is a one-stop shop for disaster damage and restoration with hundreds of locations throughout the United States and Canada. Their professionals are certified in emergency restoration, reconstruction, and remodeling.

The Molano's were inspired by the company's values of transparency, trust, and service. Their journey into restoration was fueled by a desire to help others and create a business rooted in compassion. With additional support from their uncles, the franchise is a full family effort, united by a shared vision of excellence and care.

As young entrepreneurs entering a traditionally male-dominated industry, Daniela and Nicolas are proud to bring diversity, innovation, and heart to their work. "We didn't set out to start a family business," said Daniela, "but everything aligned at the right time. We aren't just about restoring properties—we want to restore peace of mind to people who are likely going through a very hard time."

The office is located in Medley Florida and is ready to serve the Greater Miami area with 24/7 emergency restoration services, including water, fire, mold, and storm damage recovery.
