

Medsynapse RIS-PACS from Medsynaptic Recognized in KLAS 2025 Consistent High Performers Report

Recognition places Medsynaptic among the world's most trusted healthcare IT vendors & notably, one of only two PACS companies globally to earn this distinction

PUNE, MAHARASHTRA, INDIA,
November 10, 2025 /

EINPresswire.com/ -- Medsynapse RIS-PACS from Medsynaptic Pvt Ltd was recognized in the KLAS 2025 Consistent High Performers Report. The recipients of this recognition showed that they consistently deliver strong client satisfaction year over year. The overall performance score of a vendor's fully rated product met the following thresholds for three years in a row to qualify: 90+ (on a 100-point scale) each year from December 2021 through December 2024.

They must consistently meet KLAS' stringent customer feedback thresholds across all measured pillars — including Loyalty, Relationship, Culture, Value, Product, and Operations.

This distinction signifies sustained excellence and long-term client trust, not just short-term success.

Dr Ashish Dhawad, CEO about the recognition: “Being named among the KLAS 2025 Consistent High Performers is a proud moment for the entire Medsynaptic team. Our journey has always been driven by a simple mission — to enhance patient care through smarter, faster, and more reliable imaging technology. This recognition from KLAS validates that our commitment to excellence and customer partnership continues to make a meaningful impact worldwide.”

“Being named a KLAS Consistent High Performer means you don’t just delight customers once: you keep doing so year after year. Companies at this level pair reliable results with proactive partnership, transparent communication, and continual improvement. That consistency builds the trust providers depend on to deliver better care.” —Adam Gale, CEO, KLAS Research
