SkyNetHosting.Net Inc. has introduced its [Corporate VIP Reseller Hosting Plan](https://www.skyneethosting.net/corporate-vip-reseller-hosting-plan), setting a new standard in professional reseller hosting for 2025. The package delivers 26 enterprise grade tools, blending affordability and automation to help entrepreneurs build profitable hosting brands.

Starting at \$9.95 for the first month and \$39.95 per month thereafter, this all in one plan integrates Free WHMCS billing automation, Free MailChannels AI-powered email security, and LiteSpeed web servers. If purchased separately, these tools could cost between \$15,000 and \$40,000 annually, giving resellers unmatched cost efficiency.

Subscribers receive 1TB NVMe SSD storage, 25TB premium bandwidth, and support for 100 cPanel accounts. NVMe SSDs operate up to 200% faster than standard SSDs, while LiteSpeed technology delivers up to 300% faster request processing than Apache. Each server runs CloudLinux OS with CageFS, providing secure, isolated hosting environments.

Included automation tools and integrations:

- Free WHMCS License
- Domain and SSL reseller accounts with up to 85% discounts
- SitePro and SitePad drag-and-drop site builders
- Attracta SEO Tools, Cloudflare CDN, and Softaculous installer (450+ apps)
- MyCompanyWeb storefront with six premium hosting templates

- Free SSL certificates and white-label branding tools

The Corporate VIP Reseller status allows [VPS reselling](#) from \$2.95/month and dedicated server reselling from \$39.95/month, both at 50% below market rates and no minimums. Resellers can maintain full brand ownership through complete white-label infrastructure, achieving profit margins up to 200% per server sold.

24/7 live human support, branded chat systems, and ready to use legal documentation including Terms of Service, Privacy Policy, and Acceptable Use Policy to ensure immediate compliance and customer confidence.
