EINPresswire.com/ -- Prime 1 Studio is pleased to announce the start of preorders for the Real Elite Masterline "Superman & Krypto" statue, based on the upcoming film directed by James Gunn.

This 1/3 scale statue stands approximately 95 cm tall and features Superman and his companion Krypto, both depicted with detailed sculpting and realistic paintwork. Two portraits are included for Superman: one with a composed expression and another with a gentle smile. Both head sculpts are designed to capture the likeness of actor David Corenswet. Each portrait can also be displayed separately on the included head stand.

Krypto is portrayed with his white fur, cape, and collar featuring the "S" emblem. The base design is inspired by the Fortress of Solitude and includes an LED lighting feature.

A Heat Vision portrait with LED illumination is available as a bonus feature exclusive to this version.
