WASHINGTON, DC, UNITED STATES,
November 12, 2025 /

EINPresswire.com/ -- The [New Paradigm Institute](#) (NPI), together with its grassroots network Citizens for Disclosure, today [invites the public](#) to participate in the premiere of the feature-length documentary [The Age of Disclosure](#), with in-person and virtual watch party events occurring nationwide. The film debuts on November 21, 2025, in select theaters and on Amazon Prime Video.

About the Film:

Watch The Age of Disclosure. Bring your family and friends. Host a watch party and become part of history in the making."

Danny Sheehan

The Age of Disclosure is two hours of zero doubt, featuring 34 military, intelligence, and government leaders who speak openly about an eight-decade-long global cover-up involving Unidentified Flying Objects (UFOs), now commonly referred to as Unidentified Anomalous Phenomena (UAP), extraterrestrial and non-human intelligence, and reverse-engineered technology. The documentary shows how major nations have competed secretly to harness NHI technology, and explores how

those realities directly connect to our climate crisis and the threat of nuclear holocaust.

Variety says it "...could change the world." The Motion Picture Association of America observes that The Age of Disclosure "has a real shot at being 2025's defining documentary, and could, should start a real, sustained conversation about what seems now an obvious fact — we are not alone."
