

- Full hidden internal cable routing — sleek, integrated look.
- T47 (86 mm) bottom bracket — wider, stiffer, and easy to maintain.
- UDH rear hanger — universal derailleur compatibility.
- Disc brake thru-axle system — improved stiffness and braking precision.
- Frame sizes: XXS / XS / S / M / L
- Handlebar widths: 380 / 400 / 420 / 440 mm
- Stem lengths: 80 / 90 / 100 / 110 / 120 mm — covering a complete road frame size chart.

Each bike frame road bike configuration balances stiffness, compliance, and control — ideal for racing, climbing, or endurance rides.

Trusted by Global Riders — Built with Proven Manufacturing Excellence

HaideliBikes' OEM & ODM advantage as a trade-and-factory-integrated [bicycle frame manufacturers](#) ensures reliable, customized solutions. Advanced infrared inspection systems monitor resin uniformity and internal structure, guaranteeing that each carbon fiber road bike frame is consistent, lightweight, and durable.

HaideliBikes actively seeks agents and distributors worldwide and sponsors influential teams to promote its products. The company also operates its own brand TIDEACE, and supports bulk personalized customization to meet the diverse needs of global cyclists.

Why This Carbon Road Frame Matters

Across North America, Europe, and Asia, riders are shifting toward aero road frames that combine efficiency with comfort.

The HaideliBikes carbon fiber road bike frame reflects international trends:

- Aerodynamic performance: reduced drag with every pedal stroke.
- Modern geometry: balance between stiffness and comfort.
- Future-proof standards: T47 bottom bracket, UDH hanger, and internal routing for mechanical or electronic groupsets.
- Custom fit options: broad road bicycle frames sizing range and modular cockpit dimensions.
- Long-term value: professional-grade performance without compromising quality.

These road bikes frames satisfy both racing and endurance riders, positioning HaideliBikes as a

reference in high-performance cycling solutions globally.

The Global Shift Toward Smarter Carbon Engineering

Cyclists worldwide seek aerodynamic efficiency, comfort, and precision. The combination of EPS technology, T800+T1000 carbon layup, and factory-level quality control positions HaideliBikes to meet that demand efficiently.

About HaideliBikes

HaideliBikes is a professional carbon bike frame manufacturer and exporter with over 10 years of OEM & ODM experience, specializing in carbon road, gravel, MTB, and triathlon frames. Integrating R&D, production, and global trade, HaideliBikes delivers innovation and quality to riders worldwide.

Final Thoughts

The new HaideliBikes carbon road bike frame is more than a product — it's a statement of modern cycling: precision, aerodynamics, and uncompromising performance. With multi-size options, top-tier materials, and world-class quality assurance, HaideliBikes proves that high-end carbon engineering is about perfection in every detail.
