

Home and Hive Pest Control Revolutionizes Texas Pest Management with Pollinator-Friendly Solutions

Family-Owned Company Combines Effective Pest Control with Honeybee Conservation Across North Texas

FRISCO, TX, UNITED STATES, November 12, 2025 /EINPresswire.com/ -- Home and Hive Pest Control, a locally-owned and family-operated pest management company serving the Dallas-Fort Worth metroplex, announces its innovative approach to residential and [commercial pest control](#) that prioritizes both home protection and honeybee conservation. With operations spanning [Frisco](#), Prosper, Celina, and McKinney, Home and Hive is leading the charge in redefining pest control standards by combining industry-leading extermination services with a deep commitment to protecting vulnerable pollinator populations.

The announcement comes as the U.S. pest control industry reaches an estimated \$26.1 billion in annual revenue, with Texas homeowners increasingly seeking professional pest solutions to address year-round pest activity. However, Home and Hive distinguishes itself by offering [pest control services](#) that safeguard homes without compromising the health of critical pollinator species essential to Texas ecosystems.

"We understand that homeowners need effective pest control solutions, and they also care about the environment," said the owner of Home and Hive Pest Control. "Our mission is to deliver exceptional pest management while minimizing impact on honeybees and other vital pollinators. We believe these two goals are not mutually exclusive they can work together

The image shows the logo for Home and Hive Pest Control. The logo features the words "HOME & HIVE" in large green letters, with a small graphic of three hexagons (two white, one with a pattern) to the left of the 'H'. Below this, the words "Pest Control" are written in a smaller green font. Below the text is a photograph of a large, two-story house with a stone and stucco exterior, a prominent front porch, and a large tree in the foreground. At the bottom of the image is a green hexagonal icon containing a white silhouette of a house with a door and windows, set against a black background.

Protect your home and yard from invading pests with easy upfront pricing and service that's second to none.

harmoniously."

Addressing Key Concerns of Homeowners in Texas

Homeowners across the Lone Star State face a myriad of pest-control challenges:

- Termites & wood-destroying insects that threaten structural integrity
- Rodents and mice seeking warmth indoors during seasonal changes
- Mosquitoes, spiders, wasps, and cockroaches that create health or nuisance hazards
- Bee hives and stinging-insect colonies, which require specialized, humane removal

Home & Hive specifically addresses these concerns by offering residential and commercial pest-control packages that cover ants, wasps, termites, mosquitoes, rodents, spiders, cockroaches and more.

Why Home & Hive Is the Top Choice for Texas Home Owners

- Pollinator-minded solutions – Recognizing that honeybees play a critical role in our ecosystem and food cultivation, Home & Hive implements pest-control practices that minimise impact on beneficial pollinators.
- Local expertise & trust – Based in Frisco, Texas, Home & Hive is rooted in the community and understands Texas-specific pest behaviors.
- Comprehensive service menu – From standard pest control to termite monitoring, mosquito defence, rodent exclusion and full bee/hive removal homeowners get one trusted provider instead of chasing multiple contractors.
- Customer satisfaction centric – Client testimonials repeatedly highlight promptness, professionalism, and friendly service.

Don't let termites destroy your home. Allow Home and Hive to protect your investment with our termite monitoring systems.

Want to enjoy spending time outdoors without dealing with Mosquitos? Let us protect your yard and family with our seasonal mosquito plan.

- Eco-conscious approach – With an origin in beekeeping, the company chooses solutions that align with ecological sensitivity while delivering results.

Home & Hive's Service Highlights for Home Owners of Texas

- Residential Pest Control – Protect your home and yard from ants, spiders, rodents, roaches and other everyday pests.
- Termite Control & Monitoring – A proactive approach to the silent structural destroyers.
- Mosquito & Outdoor Pest Defence – Enjoy your yard without swarms, bites or buzzing nuisances.
- Rodent Exclusion & Control – Stop mice, rats and squirrels from damaging insulation, wiring or posing health risks.
- Bee & Hive Removal – Live hive removal, swarm control, repellent methods all handled safely by skilled beekeepers.
- Commercial Pest Control – Serving businesses across Texas with tailored programs to keep operations running smoothly.

Ideal for Home Owners of Texas

Rodents are a common problem in DFW. Let Home and Hive remove these pesky pests, and keep them from returning.

Whether you're a homeowner in Frisco, Plano, McKinney, Celina or anywhere across the greater Texas region, Home & Hive Pest Control delivers a service you can rely on. If you're preparing to sell or buy a home, dealing with an active infestation, or simply want to protect your investment with a preventative plan this is your go-to pest-control partner.

About Home & Hive Pest Control

Home & Hive Pest Control is a locally owned, family-operated company in Frisco, Texas, offering environmentally responsible pest-management services. Founded on the principle that you don't have to compromise between pest-free living and pollinator protection, we provide top-tier residential and commercial solutions across the state.

Protect your home, safeguard your family, and preserve nature's hardworking pollinators all with one trusted provider. Don't let pests wait: the time to act is now.
