WEALTH PARTNERS (DWP), the Abu Dhabi-based investment firm pioneering the integration of Artificial Wisdom into asset management, has announced a strategic investment in ALMOND FINTECH, a revolutionary company reshaping cross-border payments and financial inclusion through the fusion of AI and blockchain technology.

The announcement was made during Web Summit Lisbon 2025, one of the world's largest technology gatherings, reinforcing DELTA WEALTH PARTNERS' mission to back companies that merge technological excellence with social and economic purpose.

ALMOND FINTECH's proprietary AI-driven platform simplifies and accelerates international money transfers by enabling secure, low-cost, and transparent transactions. Dr. Abdalla Kablan, Founder and CEO of DELTA WEALTH PARTNERS — recognized globally as the Pioneer of Artificial Wisdom — commented:

"Our investment in ALMOND FINTECH is more than a financial decision; it is a commitment to a wiser, fairer financial future.

In a world where algorithms move capital, we believe wisdom must move humanity forward. By aligning intelligence with ethics and innovation with inclusion, we are shaping the future of finance — one that values purpose as much as profit."

Adam Swartzbaugh, CEO and Co-founder of Almond FinTech added : "Innovation committed to creating social value at a systemic level requires collaboration across the entire ecosystem. DELTA Wealth Partners is precisely the type of purpose-driven investor that will help Almond FinTech achieve its mission to unify the world's financial infrastructure, making money movement more efficient and cost-effective.
