The Global Brand Frontier Awards, conducted by Boston Brand Research & Media, celebrate global pioneers that set new benchmarks in their industries, drive impactful innovation, and shape the future through bold, strategic decisions. This dual award recognition for BSP reflects its progress in accelerating the energy transition in Brunei Darussalam while modernizing core operations with state-of-the-art 3D printing technologies.

“Brunei Shell Petroleum continues to set a powerful example of how legacy energy companies can lead the charge into a sustainable and tech-forward future,” said Shivakumar, President & CEO of Boston Brand Research & Media. “Their dual commitment to renewable energy and the

adoption of advanced technologies like 3D printing reflects not only operational excellence but also visionary leadership. We are proud to recognize BSP's remarkable achievements."

BSP's renewable energy initiatives support Brunei Darussalam's long-term national vision by enabling cleaner energy solutions, optimizing resource efficiency, and integrating sustainability into long-established upstream operations. In parallel, its 3D printing technology implementation is helping to streamline maintenance, reduce lead times, and enhance the resilience of critical supply chains, demonstrating how digital and advanced manufacturing capabilities can be embedded into oil and gas operations to deliver safer, more efficient, and more sustainable outcomes.

With this dual recognition, Brunei Shell Petroleum Co. Sdn. Bhd. joins a growing community of leading organizations from around the world that have been celebrated by the Global Brand Frontier Awards for their impact on their industries, communities, and stakeholders.
