

ShipToBox.com Announces Expansion of Its AI Global Checkout Platform

ShipToBox.com enables global users to compare prices across major U.S. retailers and process international purchases through a unified AI-driven checkout system

NEW YORK, NY, UNITED STATES,
November 18, 2025 /

EINPresswire.com/ -- ShipToBox.com, the award-winning AI-powered global checkout and international commerce platform, today announced the expansion of its AI Shopping Engine for Black Friday and beyond, delivering a seamless way for customers worldwide to shop the best U.S. deals in a single checkout — while saving up to 10% in U.S. sales tax and up to 80% on international shipping.

Built to eliminate the complexity global shoppers face when buying from multiple U.S. retailers, ShipToBox's AI scans Amazon, Walmart, Best Buy, Target, Sephora, Nike, Apple, and more than 1,000 U.S. stores. The system identifies the lowest available prices, analyzes promotions, applies valid coupons, and automatically generates tax-optimized checkout options. Instead of juggling multiple shopping carts or experiencing payment failures, customers can shop once, pay once, and ship anywhere using ShipToBox's unified global AI checkout.

AI Advantages Over Traditional Forwarders

ShipToBox.com is engineered with proprietary AI that automates every major step of global shopping. Unlike conventional forwarding companies, ShipToBox replaces manual workflows with a fully automated, borderless, all-in-one shopping and shipping experience.

Key AI advantages include:

Positioning ShipToBox for Global Growth

With the U.S. holiday season approaching — and year-round domestic and international shopping demand increasing — ShipToBox expects a significant surge in both domestic and cross-border transactions. The company continues expanding its AI technologies and forming partnerships with retailers, banks, and logistics carriers worldwide.

ShipToBox also provides licensing and API integrations for global SMBs and enterprises that want to leverage the platform's one-checkout, tax-optimization, and AI logistics capabilities. Much like Expedia transformed global travel and Amazon transformed online shopping in the U.S., ShipToBox.com — combined with PayToMe.co — is empowering U.S. retailers and worldwide shoppers with faster, smarter, and more accessible cross-border commerce.
