

# PowerSchool Expands AI Capabilities with Multi-Language Support for Students and Teachers

DUBAI, UNITED ARAB EMIRATES,  
November 17, 2025 /

[EINPresswire.com/](https://EINPresswire.com/) -- PowerSchool, a leading provider of cloud-based software for K-12 education, has announced expanded multi-language support for two of its Responsible AI-powered solutions: PowerBuddy for Learning, a student-facing chat assistant, and PowerBuddy Tools, a content generation tool for teachers. With support for Arabic, Spanish, Thai, French, and English, these AI tools are now more accessible and inclusive for classrooms around the globe.

PowerSchool Expands AI Capabilities

PowerBuddy for Learning now supports five languages, enabling students to receive real-time, on-demand Socratic guidance for homework, questions, and learning support, and explore personalized content in their preferred language. The addition of Arabic support expands access across the Middle East and North Africa, promoting native language instruction and digital equity in alignment with national education goals.

PowerBuddy Tools, available in PowerSchool solutions including Student Information System (SIS), Schoology, Curriculum & Instruction and MyPowerHub, help educators save time on a variety of tasks such as lesson planning and generating standards-aligned content. At Maryvit School, an international school in Thailand, 98% of teachers reported time savings with PowerBuddy, with half saving 20 minutes or more per lesson or assessment. With multi-language capability, PowerBuddy Tools helps teachers support bilingual and multilingual classrooms with efficiency and inclusivity.

Multi-language capabilities are available now in PowerBuddy for Learning. Multi-language support in PowerBuddy Tools will be available to all Schoology customers this month.
