“

Getting to bring these games together and team up with Humble to host it has been incredible! We're all proud as hell of how it turned out.”

Clique Games helped organize Humble's new Beyond Virtual Realities VR bundle, featuring Dragon Fist: VR Kung Fu, FrenzyVR, and more. Available now.

The bundle is available as a pay-what-you-want offer and runs for a limited time through Humble.

“This bundle is about putting great VR games in more hands,” said Waylon Fisher, COO of Clique Games. “We worked directly with Humble and fellow VR devs to make this happen, and we’re thrilled with how it turned out.”

Two of Clique's most popular releases are featured in the lineup:

Dragon Fist: VR Kung Fu – A first-person martial arts brawler with physics-driven combat, stylized visuals, and a full single-player tournament mode.

FrenzyVR – A sandbox of pure chaos, where players experiment with absurd weapons, physics-driven destruction, and interactive environments.

"Getting to bring these games together and team up with Humble to host it has been incredible! We're all proud as hell of how it turned out," said Brandon Egolf, CEO of Clique Games. "Humble's been awesome to work with, and every dev in this lineup brought something unique for players. This is the kind of bundle we've been looking forward to building for years, and now that it's here we can't wait to see everyone's reactions!"
