Final Trailer for "Niraya of 〆〆"

About "Niraya of 〆〆"

This title is a Japanese-style horror adventure that blends a surreal, contemporary setting with the

Buddhist philosophy, popularized during Japan's medieval Kamakura period. It features a new game system focused on "avoiding" attacks from diverse monsters rather than defeating or hiding from them. Players experience exploring surreal spaces and solving mysteries, combined with psychological horror evoked through the strange world and discovered lore.

The new trailer reveals scenes such as battles with mysterious birds attacking and the unsettling image of a phone receiver dangling off the hook.
