PowerBros: Automation, Security, and Modernization for

The M365 Show Podcast — a leading show covering Microsoft 365, Power Platform, and Microsoft Cloud innovation.

Microsoft 365

PowerBros helps organizations streamline work processes, eliminate manual tasks, and improve the security and governance of Microsoft 365 and Power Platform environments. Their services include workflow automation, detailed system audits, and custom app development designed to reduce operational friction and accelerate business efficiency.

Through clear communication, modern engineering standards, and tailored solutions, PowerBros supports companies seeking stronger security, optimized operations, and simplified digital transformation.

DesignKit.cz: From Figma to Power Apps in a Single Workflow

DesignKit brings a new level of speed and consistency to Power Apps development. The platform enables teams to design complete Power Apps interfaces directly in Figma, validate components, manage dependencies, and export final controls or YAML for use in Canvas Apps.

By removing weeks of manual layout and styling work, DesignKit ensures consistent design systems, cleaner collaboration between designers and developers, and dramatically faster delivery from concept to production.

Global Sponsorship Expansion

With growing international listenership and demand from enterprise vendors, The M365 Show Podcast is now accepting sponsors from four key Microsoft Cloud markets:

United States

United Kingdom

Canada

Australia

India

Germany

PowerBros Solutions — specialists in Microsoft 365 automation, audits, and Power Platform modernization.

This expansion allows Microsoft-focused companies worldwide to reach a highly engaged

audience of cloud architects, admins, developers, makers, and IT decision-makers.
