

Zeniko Announces the Launch of the ZA12 Dual-Dial Camera Flash

Clean Fill & Catchlights, On Demand

Lift shadows, add sparkle, and keep skin tones flattering in seconds.

CA, UNITED STATES, November 20, 2025 /EINPresswire.com/ -- Zeniko, a brand dedicated to

“

Zeniko ZA12: Retro aesthetics meet modern precision, delivering true-to-life light and control.”

Aileen Samantha, Marketing Promoter, Zeniko

merging timeless design with cutting-edge optical innovation, proudly announces the [Zeniko ZA12 Dual-Dial Camera Flash](#), a compact, retro-inspired flash unit that brings the tactile joy of vintage film cameras into the digital era.

A Nostalgic Design That Captures the Heart

Inspired by classic film cameras, ZA12 features dual dials, tactile resistance, and gentle clicks that recreate the

satisfying mechanical feel of vintage photography. With its aluminum body, silver dials, and nickel logo plate, every detail pays homage to the timeless aesthetics of analog gear.

At just 60 g and 55×47×36 mm, it disappears in a pocket yet keeps your camera perfectly balanced. The result is a flash that feels mechanical and precise, elegant but unobtrusive—made to carry every day and ready the instant the light needs a lift.

Powerful Optics, Brighter Shots

Small body, serious light. [Zeniko ZA12](#) packs impressive power thanks to Zeniko’s self-developed optical system. Its xenon tube and Fresnel lens deliver natural light and true colors, producing stunning brightness and lifelike results. Whether shooting indoors, outdoors, or on the streets, you get crisp catchlights, lifted shadows, and the punch to freeze motion—without harsh hotspots or heavy gear.

Dual-Dial Simplicity, Precise Manual Control

The ZA12 makes flash control second nature.

- Dial 1: set aperture
- Dial 2: set ISO and power (Full 1/64)

Its Smart Auto Mode (non-TTL) intelligently syncs with camera settings to ensure accurate exposure, making professional-level lighting effortless even for beginners.

Fast, Reliable, and Always Ready

With a recycle time as low as 0.1s at 1/64 power, Zeniko ZA12 keeps up with rapid bursts. The built-in rechargeable battery delivers up to 400 full-power pops and supports USB-C fast charging, reaching a full charge in about one hour. Auto Sleep preserves energy between shots, and plug-in operation lets you keep shooting while connected—so your flash is ready whenever the moment hits.

Soft, Natural Light—Included Diffuser

Every ZA12 comes with a free diffuser, enabling photographers to effortlessly flip between sharp, dramatic punch and soft, flattering glow—perfect for portraits, still life, and creative shots.

Universal Compatibility

Equipped with a single-contact (center-pin) hot shoe, the Zeniko ZA12 mini flash is compatible with Fujifilm, Sony, Canon, Nikon, Olympus, Ricoh GR, Leica, and more. It meets multiple international safety standards, ensuring reliable performance for creators worldwide.

Two Timeless Finishes

The ZA12 is available in two color options:

- Retro Silver—Silver-and-black contrast that echoes classic metal cameras.
- Film Black – Matte, low-key finish that complements vintage-style bodies.

Availability

The Zeniko ZA12 Dual-Dial Mini Camera Flash is now officially available on Zeniko's global website.

The advertisement features a black and white photograph of the Zeniko ZA12 Dual-Dial Camera Flash mounted on a vintage-style camera with a brown leather strap. The flash is silver and black. To the right of the camera is a small, round, silver diffuser. The background is dark and out of focus. The text 'Instant Flash Stunning Shots' is written in a white, cursive font at the top. Below it, in a smaller, white, sans-serif font, is 'ZA12 Dual-Dial Camera Flash'. At the bottom, in a white, cursive font, is the quote 'Capture Your Brilliant Moments'.

The Zeniko ZA12 Dual-Dial Camera Flash combines retro film-camera design with a compact, powerful lighting system.
