

Optical Brightener Market Size, Share, Competitive Landscape and Trend Analysis Report

The Business Research Company's Optical Brightener Global Market Report 2025 – Market Size, Trends, And Global Forecast 2025-2034

LONDON, GREATER LONDON, UNITED KINGDOM, November 20, 2025
/EINPresswire.com/ -- How Large Will The Optical Brightener Market Be By 2025?

The Business
Research Company

The Business Research Company

The [optical brighteners market size](#) has seen robust growth in recent years. Projected market growth indicates a rise from \$1.3 billion in 2024 to \$1.41 billion in 2025, with a compound annual growth rate (CAGR) of 8.1%. The significant growth during the previous period can be credited to

the burgeoning textile industry, widening of the paper and packaging sector, improvements in formulations, consumer inclination towards radiant colors, expanding global markets, and cutting-edge innovations in specialty products.

In the coming years, the market size for optical brighteners is projected to experience robust growth. It is forecasted to rise to \$2 billion by 2029, with a compound annual growth rate (CAGR) of 9.3%. This growth during the projected period can be linked to its escalating usage in plastics and polymers, strict environmental guidelines, increasing

disposable income, and the rising applications in the automotive sector, as well as customization for distinctive applications. Significant trends for the forecast period involve advancements in technology regarding formulations, a transition towards eco-friendly alternatives, application in cosmetics and personal care items, focus on enhancing brightness and color, application in printing inks, and the development of collaborations and partnerships.

What Are The Major Driving Forces Influencing The Optical Brightener Market Landscape?

The enhancement of manufacturing activities is poised to fuel the progression of the optical brighteners market. The manufacturing sector is a component of the economy that focuses on the creation of goods intended for sale. Optical brighteners find value in this sector as important resources for a range of industries which include fabrics, synthetics, plastics, and detergents among others. The United Nations Industrial Development Organization, located in Austria, reports that the dynamism of China's manufacturing sector has persisted, rising by 1.5% in 2024. Comparing yearly, manufacturing output in China escalated by 6.7 per cent, and it surged by 2.5 per cent across rest of Asia and Oceania. In 2024, there was an approximate 1% quarterly growth in the manufacturing sector in both established and developing economies. Thus, the expansion of the manufacturing sector is contributing to the growth of the optical brightener market.

Who Are The Top Players In The Optical Brightener Market?

Major players in the Optical Brightener include:

- BASF Colors & Effects GmbH
- Huntsman International LLC
- Eastman Chemical Company
- Archroma
- Clariant AG
- RPM International Corp.
- Keystone Aniline Corporation
- Aron Universal Ltd.
- Brilliant Colors Inc.
- 3V Company Inc.

What Are The Key Trends And Market Opportunities In The Optical Brightener Sector?

Increasingly, strategic alliances and collaborations are emerging as a significant trend in the optical brightener market. The primary businesses in this market are aiming their efforts towards strategic pacts and mergers to match consumer needs. For instance, in May 2022, Brenntag Specialties, a chemical distribution firm based in Germany, entered into a new partnership with Archroma, a specialty chemical and optical brightener manufacturer located in Switzerland. The objective is to broaden its product range in home care, household, industrial and institutional (HI&I) cleaning laundry products and detergents. This acquisition enables Brenntag Specialties to extend their reach in the US and Canada.

Market Share And Forecast By Segment In The Global Optical Brightener Market

The optical brightener market covered in this report is segmented –

- 1) By Type: Triazine-Stilbenes, Coumarins, Imidazolines, Diazoles, Benzoxazolines
- 2) By Application: Paper, Fabrics, Detergents And Soaps, Synthetics And Plastics, Lacquers, Ultraviolet Tracer, Pigmented Lacquers

3) By End-Use: Consumer Product, Security And Safety, Textiles And Apparel, Packaging

Subsegments:

- 1) By Triazine-Stilbenes: Disperse Blue, Disperse Yellow
- 2) By Coumarins: Coumarin 1, Coumarin 6
- 3) By Imidazolines: Basic Imidazolines, Acidic Imidazolines
- 4) By Diazoles: Benzothiazole Derivatives, Benzimidazole Derivatives
- 5) By Benzoxazolines: Substituted Benzoxazolines, Non-Substituted Benzoxazolines
