Logistics Plus Inc. (LP), a global leader in transportation, logistics, and unique supply chain solutions, announced its support for [Rebuild Jamaica Logistics](#), a partnership with Kingston Wharves Limited (KWL). The initiative empowers businesses, organizations, and communities to move freight and materials into Jamaica as the country rebuilds following the devastation of Hurricane Melissa.

As Jamaica begins recovery efforts, Kingston Wharves is serving as the primary gateway and community connection point, coordinating local logistics and providing essential handling, customs, and distribution services.

Logistics Plus is honored to stand beside KWL, offering global reach, supplier coordination, and international freight forwarding through its worldwide network. From its Miami, Florida, warehouse, Logistics Plus is already managing freight consolidation and forwarding services to Jamaica. As a project-cargo specialist, LP is also equipped to handle large-scale shipments for infrastructure, energy, and hospitality projects.
