

Kernel Launches 'Office 365 Migration Pro' – A Comprehensive Solution for Office 365 Tenant to Tenant Migration

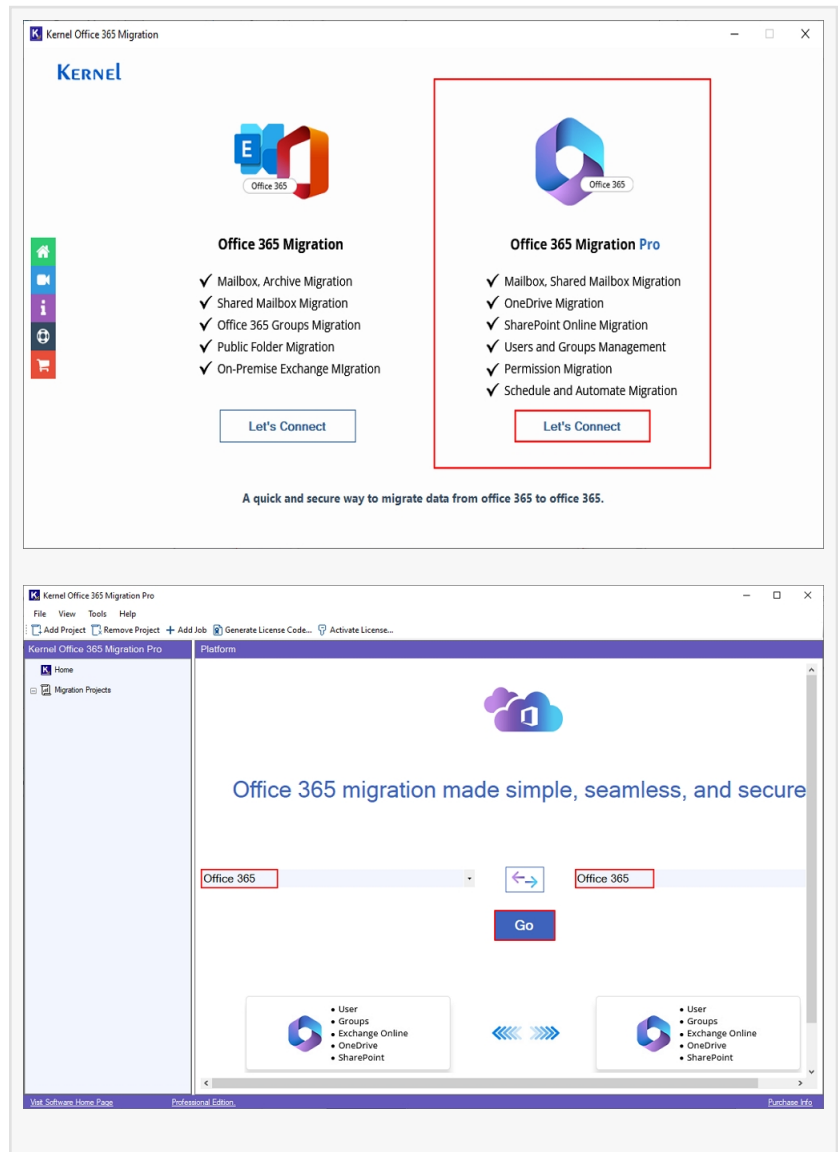

Kernel Data Recovery has announced the launch of its latest enterprise-grade solution, the Office 365 Migration Pro tool, with unmatched accuracy, and security.

NEW YORK, NY, UNITED STATES,
November 21, 2025 /

EINPresswire.com/ -- Kernel Data Recovery has announced the launch of its latest enterprise-grade solution, Kernel Office 365 Migration Pro, designed to simplify the migration of Office 365 workloads across tenants with unmatched accuracy, flexibility, and security.

Kernel Office 365 Migration Pro tool allows organizations to perform Office 365 Tenant Migration, including Exchange Online mailboxes, OneDrive for Business files, and SharePoint online sites. Developed for enterprises and IT administrations, the software makes sure an error-free migration experience across all workloads with minimal downtime.

The [Office 365 Migrator](#) Pro version supports Exchange Online mailboxes to mailboxes migration, OneDrive to OneDrive migration, and SharePoint Online migration (Site-Level and Library-Level) for maximum control. Whether you are handling mergers, acquisitions, or domain restructuring, the tool offers the best way to move workloads across Office 365 tenants securely.

Apart from its powerful migration capabilities, the Microsoft 365 migration tool provides automatic user and group creation in the destination tenant if they don't already exist. With advanced user and group mapping, it allows users to migrate data in the right accounts, maintaining complete accuracy and hierarchy. Users can utilize advanced filters to perform selective Microsoft 365 migration based on date range, item type, folder, etc.
