

Primech A & P Celebrates Major Wins at Singapore 2025 LOO Awards, Showcasing Hygiene, Technology and Industry Excellence

Award-Winning Associates and Transformative Facility Standards Reinforce Primech A & P's Leadership in Singapore's Hygiene and Facilities Sector

SINGAPORE, SINGAPORE, November 20, 2025 /EINPresswire.com/ -- Primech A & P Pte. Ltd. ("Primech A & P" or the "Company"), an established technology-driven facility services provider and a subsidiary of Primech Holdings Limited (Nasdaq: PMEC), proudly announced a series of major wins at this year's Singapore 2025 LOO (Let's Observe Ourselves) Awards, reinforcing its position as an industry frontrunner in cleanliness, hygiene innovation, and service quality.

This year's results marked Primech A & P's strongest showing to date. Eight Primech A & P associates received prestigious individual LOO Awards, a testament to the company's commitment to investing in its people and building a culture grounded in pride, professionalism, and operational excellence.

Primech A & P also clinched one of the event's top honours - the Best of the Best Toilet Award for its work at Holland Village Hawker Centre and Market. This award recognizes outstanding standards of cleanliness, maintenance quality, and customer experience, underscoring the company's ability to deliver transformative outcomes at Singapore's most high-traffic community

HYTRON steals the spotlight as it rolls down the red carpet at the Singapore 2025 LOO Awards.

spaces.

In addition, the company received the Cleaning Industry Award, highlighting its leadership across the sector and its ongoing contributions to raising national standards of hygiene and sustainability.

Technology in the Spotlight: Primech AI's Hytron Takes Centre Stage

A major highlight of the ceremony was the spotlight on autonomous cleaning innovation. HYTRON, the AI-powered autonomous bathroom cleaning robot developed by sister company Primech AI Pte. Ltd. ("Primech AI"), opened the event in dramatic fashion — rolling down the "red carpet" as the official launch star of the 2025 LOO Awards.

Hytron also played a central role in unveiling the Robot-Ready Toilet Design Guidebook, developed to help organisations adopt automation more seamlessly across built environments. Primech A & P and Primech AI were key contributors to this national initiative, sharing insights from real-world deployment of robotics across commercial, public, and institutional facilities.

A Strong Signal to Investors: Innovation, Scalability & Market Momentum

These accolades arrive at a pivotal time for Primech A & P, Primech AI, and Primech Holdings. As Singapore accelerates its hygiene standards and built-environment modernisation efforts, the group is strategically positioned at the intersection of advanced cleaning technology, workforce upskilling, and sustainable operations, reinforcing its long-term scalability and market momentum.

Primech A & P's strong performance at the 2025 LOO Awards signals:

- Scalability of its operational excellence across diverse, high-demand environments
- Proven ability to integrate robotics and AI, creating future-ready cleaning solutions
- Robust talent development pipelines, supported by award-winning employees
- Growing national recognition, reinforcing market trust and long-term partnership potential

Together, Primech A & P and Primech AI are demonstrating how traditional cleaning services can evolve into data-driven, tech-enabled facility ecosystems — an attractive proposition for investors focused on smart city infrastructure, automation, and environmental sustainability.

About Primech AI

Primech AI is a leading robotics company dedicated to pushing the boundaries of innovation in technology. With a team of passionate individuals and a commitment to collaboration, Primech AI is poised to revolutionize the robotics industry with groundbreaking solutions that make a meaningful impact on society.
