

Aerospace Maintenance Chemical Market Size to Reach USD 13.7 Billion by 2030, Says Allied Market Research

The report offers a detailed segmentation on the global aerospace maintenance chemical market based on nature, product type, type of aircraft and region.

WILMINGTON, DE, UNITED STATES,
November 20, 2025 /

EINPresswire.com/ -- Rise in demand for the maintenance of aircraft surface, increase in flight frequency among middle class population due to the increase in disposable income, and extensive use of cleaners to keep all commercial aircrafts corrosion free and maintain hygienic conditions inside & outside are expected to drive the growth of the global [aerospace maintenance chemical market](#). On the other hand, high maintenance costs of aircrafts are expected to hinder the growth to some extent. However, upsurge in maintenance, repair, and overhaul (MRO) activities of the aircraft in various countries is expected to create ample opportunities for the industry.

The global aerospace maintenance chemical market generated \$7.8 billion in 2021, and is projected to reach \$13.7 billion by 2030, growing at a CAGR of 6.2% from 2022 to 2030. The report provides an in-depth analysis of the top investment pockets, top winning strategies, drivers & opportunities, market size & estimations, competitive scenario, and wavering market trends.

Segment Overview:

Based on type of aircraft, the commercial segment held the majority market share in 2021, holding more than two-fifths of the global market. In addition, the same segment is predicted to exhibit the fastest CAGR of 6.5% during the forecast period. Other segments analyzed in the

report include business, defence, and others.
