

CMG Containers Expands Cold Chain Capabilities with Advanced Refrigerated Shipping Containers

Refrigerated units deliver reliable, portable cold storage for food, pharma, and logistics. Durable, efficient, and ideal for any temperature-sensitive need.

FORT LAUDERDALE, FL, UNITED STATES, November 20, 2025 /

EINPresswire.com/ -- CMG Containers, one of the nation's leading providers of modular and shipping container solutions, has announced the expansion of its temperature-controlled product line with its new improved series of refrigerated shipping containers. These units help in maintaining product quality throughout the cold chain. Their high-performance cooling capabilities make them indispensable for industries including pharmaceuticals, agriculture, and food services.

Refrigerated shipping containers are designed with precision insulation, high-grade refrigeration systems, and reinforced steel construction. CMG Container's latest cold storage containers offer reliable, scalable solutions for companies managing temperature-sensitive products. These portable refrigerated containers ensure consistent temperature control while reducing operational costs and being energy efficient.
