

Cata-Kor Launches Next-Generation Inside-Out Beauty Formula Expanding Its Healthy Longevity Portfolio

An inside-out beauty formula featuring CA-AMG and key nutrients to support hydration, smoothness and the normal structure of skin, hair and nails.

MIAMI, FL, UNITED STATES, November 20, 2025 /EINPresswire.com/ -- Miami, Florida, USA — 2025 — Cata-Kor, a U.S.-based nutraceutical company known for its science-informed approach to wellness innovation, announces the launch of Cata-Kor CA AMG – Longevity Complex for Skin, Hair & Nail, a next-generation inside-out beauty supplement designed to elevate daily routines with a focus on long-term tissue vitality and visible results.

Bringing the company's Healthy Longevity philosophy into the beauty-from-within space, the new formula was developed over six months and reflects the growing consumer shift toward supplements that support appearance, confidence and overall well-being through nutrition.

The Cata-Kor CA AMG – Longevity Complex for Skin, Hair & Nail formula features a carefully structured combination of eight active ingredients commonly associated with the health and appearance of skin, hair and nails.

Cata-Kor*

molecule involved in key metabolic pathways.

MSM (Methylsulfonylmethane) — an organic sulfur compound that supports normal collagen and keratin formation.

Hyaluronic Acid — helps maintain normal skin hydration and smoothness.

Biotin, Zinc, Vitamin C — nutrients involved in the maintenance of normal skin, hair and nail structure.

Vitamins D3 and K2 (MK-7) — support normal connective tissue function.

The blend is designed to complement topical beauty routines by supporting hydration, smoothness, elasticity and the normal structure of tissues — offering a more holistic approach to beauty that begins from within.

Cata-Kor notes that the formulation draws on published ingredient-level research exploring the established physiological roles of Ca-AMG, MSM, hyaluronic acid and essential micronutrients. While the company underscores that these references relate to individual ingredients rather than product-specific clinical outcomes, the formula reflects a broader industry movement toward evidence-informed beauty solutions.

“Consumers today are looking for beauty support that aligns with their lifestyle and their values,” said Roman Miroedov, PhD, Product Development Lead at Cata-Kor.

“They want products that feel modern, responsible and rooted in real science — not just surface-level promises. With Cata-Kor CA AMG, we aimed to create a formula that fits seamlessly into daily routines while supporting the foundations of healthy-looking skin, strong hair and resilient nails. It represents our vision for the future of wellness-driven beauty.”

The launch marks the beginning of Cata-Kor’s expanded direction in beauty-oriented wellness. The company indicates that it plans to grow this category with additional formulations and is exploring future research initiatives to further inform product development.

About Cata-Kor

Cata-Kor is a U.S.-based nutraceutical company developing formulations that support vitality, well-being and daily performance. Cata-Kor has a manufacturing facility in the United States and conducts all testing domestically, with a focus on transparency, quality and science-informed development.
