

# BluePeak EDM Launches as Only Dedicated Oracle Cloud EDM Consultancy – Cuts Hierarchy Effort Up to 70%

*New dedicated Oracle Cloud EDM consultancy founded by 20-year EPM veterans cuts hierarchy maintenance up to 70% & delivers 99% automated loads for CAOs.*

PALO ALTO, CA, UNITED STATES, November 20, 2025 /EINPresswire.com/ -- [BluePeak EDM](#), the market's first and only dedicated Oracle Cloud Enterprise Data Management (EDM) consultancy, officially launches today to help Chief Accounting Officers (CAOs) and finance teams finally break free from manual data chaos, inconsistent hierarchies, and heavy IT dependency.

BluePeak EDM is harnessing Oracle Agentic AI to modernize EDM. CAOs get 99% automated loads, proactive anomaly resolution, and hierarchy maintenance cut by up to 70%—all with finance in full control.”

*Chris Cobb, Principal, Client Success & Strategy*

Founded by 20-year Oracle Cloud EPM industry veterans who have led hundreds of successful implementations, BluePeak EDM delivers hyper-specialized services that cut hierarchy maintenance effort by up to 70% and achieve 99% automated data loads using agentic anomaly detection and resolution.

As enterprises accelerate Oracle Cloud EPM and Oracle

Cloud EDM adoption, finance teams are discovering that generic consultancies and internal IT resources simply cannot keep pace with the volume, velocity, and complexity of master data changes required for accurate financial reporting and regulatory compliance. BluePeak EDM was created to solve this exact problem.

Unlike broad-scope partners that treat EDM as one of many modules, BluePeak EDM is exclusively dedicated to Oracle Cloud EDM. The firm offers end-to-end implementation, managed services, AI-driven automation frameworks, and seamless integrations that put full ownership and agility back in the hands of finance — not IT.

“After two decades watching finance teams waste 30–70% of their time on manual EDM tasks and endless IT tickets, we knew it was time for a better way,” said Chris Cobb, Principal, Client Strategy & Success at BluePeak EDM. “BluePeak EDM gives CAOs complete control with solutions

that are faster to deploy, easier to maintain, and dramatically more cost-effective than anything else available today. Our obsessive focus on Oracle Cloud EDM means clients get 99% automated data loads, proactive anomaly resolution, and hierarchy governance that actually works.”

With the explosion of Oracle Cloud EPM migrations and increasingly complex regulatory requirements, enterprises need a partner that lives and breathes EDM every day. BluePeak EDM is already positioned to help organizations in Financial Services, Manufacturing, Healthcare, and Retail achieve true finance-owned master data agility.
