For Script miners targeting Litecoin and Dogecoin, the Bitmain Antminer L9 offers one of the strongest outputs in the market, now benefitting from a \$180 discount with an BF180 coupon.

Equihash miners also gain a major advantage this year with the Bitmain Antminer Z15 Pro 840KSol/s, which includes a \$120 reduction savings using BF120. With post-halving conditions tightening mining margins and global power costs stabilizing, reducing hardware expense is now the fastest way to improve ROI. These Black Friday promotions make high-performance ASIC miners more accessible, reducing financial risk and shortening break-even periods for both new and professional miners. All purchases include manufacturer warranties, professional support, and worldwide shipping.

The CryptoMinerBros Black Friday 2025 event is now live for a limited time at cryptominerbros.com, offering miners unmatched value across all ASIC miners.
