AEA Salicylic Acid Market growth is driven by increase in demand from the preserved food & beverage industry and growing inclination toward personal care products drive the growth of the AEA salicylic acid market. On the other hand, rising consumer awareness about the harmful effects of products restrains the growth to some extent. However, high adoption of salicylic acid in the pharmaceuticals and cosmetics sector and surge in demand for aspirin drugs are expected to create lucrative opportunities in the industry.

According to the report published by Allied Market Research, the AEA salicylic acid market was estimated at \$274.5 million in 2020 and is expected to hit \$553.8 million by 2030, registering a CAGR of 7.3% from 2021 to 2030. The report provides an in-depth analysis of the top investment pockets, top winning strategies, drivers & opportunities, market size & estimations, competitive scenario, wavering market trends.

The AEA salicylic acid market is analyzed across application and region. Based on application, the pharmaceutical segment accounted for the major share in 2020, holding more than three-fourths of the total market. The skin care segment, however, would exhibit the fastest CAGR of 8.5% throughout the forecast period.
