*The Business Research
Company*

The market size for architectural services is anticipated to witness significant growth in the coming years, projected to reach \$275.16 billion by 2029 with a Compound Annual Growth Rate (CAGR) of 6.5%. This expected growth during the forecast period is due to several factors such as increased spending by governments on infrastructure, the rapid pace of urbanization, population expansion, and the

rise of smart cities. The period is expected to see several major trends including a surge in digital commerce architecture, the launch of architectural apps, the adoption of 3D printing to broaden service offerings, technological advancements, the utilisation of blockchain technology for enhanced efficiencies and data protection, and industry partnerships and collaborations.

What Are The Current Leading Growth Drivers For Architectural Services Market?

The escalation in construction activities is anticipated to boost the expansion of the architectural services market. Construction involves amalgamating various elements to fabricate a structure at a designated location, adhering to a comprehensive design and plan. The architectural services market plays a crucial role in this context by creating necessary architectural designs and plans, and fabricating different elements required for project structures, thereby escalating the demand for these services with the growing requirement for construction activities. As per data from the Office of National Statistics, a statistical authority based in the UK, there was a massive upsurge by 15.8% in the total new work construction output in November 2023, hitting a landmark with a value of £132,989 million. Additionally, in 2022, the total new work saw an increment of £18,161 million, with the private sector registering a growth rate of 16.8% and the public sector at 13.1%. Conclusively, the surge in demand for construction activities is fuelling the growth of the architectural services market.

Which Companies Are Currently Leading In The Architectural Services Market?

Major players in the Architectural Services include:

- Jacobs Solutions Inc
- Fluor Corporation
- HOCHTIEF Aktiengesellschaft
- Stantec Inc
- Arcadis NV
- Perkins Eastman
- Gensler
- Architecture BRIO
- Cadence Architects
- CP Kukreja Architects

What Are The Main Trends, Positively Impacting The Growth Of Architectural Services Market?

Leading entities in the architectural services market are placing emphasis on technological innovation such as building information modeling (BIM) to boost team coordination, elevate the precision of designs, and make construction processes more efficient. Building Information Modeling (BIM) offers a digital interpretation of a building's physical and operational features, which allows for architects, engineers, and construction experts to visually comprehend and assess a project from its inception to completion. For example, in March 2023, Trimble Inc., an American firm specializing in software, hardware, and technology services, unveiled the 2023 editions of its Tekla structural BIM solutions which include Tekla Structures, Tekla Structural Designer, Tekla Tedds, and Tekla PowerFab. These solutions augment automated processes and facilitate integration with tools from third-party providers. The enhancements lead to better software performance, simplify detailing for fabrication, and integrate sophisticated capabilities for footfall evaluation, thereby promoting efficiency and sustainability in structural engineering and steel fabrication projects.

How Is The Architectural Services Market Segmented?

The architectural services market covered in this report is segmented –

- 1) By Service Type: Architectural Advisory Services, Construction And Project Management Services, Engineering Services, Interior Design Services, Urban Planning Services, Other Service Types
- 2) By End-User: Education, Government, Healthcare, Hospitality, Residential, Industrial, Retail, Other End Users

Subsegments:

- 1) By Architectural Advisory Services: Feasibility Studies, Regulatory Compliance, Site Selection
- 2) By Construction And Project Management Services: Project Planning And Scheduling, Cost Estimation, Quality Control
- 3) By Engineering Services: Structural Engineering, Civil Engineering, Mechanical and Electrical Engineering
- 4) By Interior Design Services: Space Planning, Furniture And Fixture Selection, Color And Material Consultation
- 5) By Urban Planning Services: Land Use Planning, Transportation Planning, Environmental Impact Assessments
- 6) By Other Service Types: Landscape Architecture, Historical Preservation, Sustainable Design Consulting
