

Honeygain Reports 270% Growth in Referral Program in Just Six Months

Honeygain reports a 270% rise in referral growth over six months, powered by product updates, clearer incentives, and stronger community engagement.

SAN FRANCISCO, CA, UNITED STATES,
November 25, 2025 /

EINPresswire.com/ -- [Honeygain](#), the global crowdsourced internet-sharing platform that allows users to earn passive income by sharing their

unused bandwidth, has announced a 270% increase in referral activations over the past six months. This significant growth follows a series of product improvements designed to make referrals clearer, more rewarding, and easier to use for millions of users worldwide.

“

Our results show that when users clearly understand the value they can share, the entire ecosystem benefits.”

*Sandra Krikstaponyte,
Product Director at Honeygain*

Over the past half-year, Honeygain simplified the referral journey by improving its tracking dashboard, clarifying how bonuses work, and shortening the onboarding flow for new invitees. The team also introduced light gamification, including seasonal campaigns and achievement-based incentives, which encouraged users to share the app more actively. In addition, creator partnerships and micro-influencer collaborations helped amplify authentic user stories and added a layer of trust that strengthened

referral conversions.

The company notes that referral programs remain one of the most cost-efficient acquisition channels. [Industry benchmarks](#) show that referred users convert three to five times more often than those acquired through paid campaigns and display significantly higher retention over time. Honeygain’s experience aligns with that trend, demonstrating how simplifying the user experience and empowering the community can transform referrals into a scalable and sustainable growth engine.

“Behind every successful growth initiative lies a clear strategy and referral programs are no

exception,” said Sandra Krikstaponyte, Product Director at Honeygain. “Our results show that when users clearly understand the value they can share, the entire ecosystem benefits. Transparency, trust and community-driven engagement are what made this growth possible.”

The company remains committed to improving user experience while continuing to scale transparently and responsibly.

About Honeygain

Honeygain is the first-ever app that allows its users to make money online by sharing their Internet connection. The app prioritizes user privacy and security, ensuring a safe and effortless way to generate additional income. Through its innovative referral program, Honeygain offers both individuals and businesses a valuable tool to maximize their earning potential without requiring any additional effort or financial investment.
