#### Covid-19 Scenario

- The Covid-19 pandemic negatively impacted the growth of the global law enforcement software market as many law enforcement software vendors incurred heavy losses during the pandemic due to lockdown imposed by governments across the globe.
- The global market is set to flourish post-pandemic with law enforcers and police personnel initiating digitization in investigation procedures.
- Adoption of the remote mode of working and demand for cloud-based law enforcement software for handling key information in firms will boost growth avenues for the global market post-COVID-19 pandemic.
