

Cellairis and Central Technologies Partner to Deliver Innovative Mobile Device Solutions for Education and Enterprise

Partnership expands access to Cellairis' trusted mobile accessories and CyberSystem solutions through Central Technologies' global distribution network

 **CELLAIRIS®**

ATLANTA, GA, UNITED STATES, November 25, 2025 /EINPresswire.com/ -- [Cellairis](#), a leading provider of mobile device accessories, innovative technology solutions, and more announced a strategic partnership with [Central Technologies](#), a leading technology solutions provider dedicated to delivering comprehensive and innovative solutions. This collaboration will bring

Cellairis' suite of mobile solutions, including the patented [CyberSystem](#) and Cyber Pouch, to a broader range of educational institutions and enterprise customers worldwide.

“

We are excited to partner with Central Technologies as a reseller for all of Cellairis' product lines, but with an initial focus on the education practice.”

*Dale Stubblefield, VP of Sales
& Business Development of
Cellairis*

“We are excited to partner with Central Technologies as a reseller for all of Cellairis' product lines, but with an initial focus on the education practice,” said Dale Stubblefield, Executive Vice President of Sales and Business Development of Cellairis. “We are empowering value-added resellers such as Central Technologies with premium, affordable devices, accessories, and solutions

that enhance the customer experience, drive sales, and streamline operations in both enterprise and education environments.”

With many schools across the nation facing cell phone restrictions or bans, Cellairis' Cyber Pouch provides a simple, effective way for students to keep their phones in class without them becoming a distraction. The Cyber Stand, an additional accessory, can be purchased separately. It is designed to hold up to 28 Cyber Pouches in a coat-rack-like structure, providing a convenient classroom storage solution.

Cellairis and Central Technologies have joined forces to provide practical, scalable solutions such as this that enhance device management, protection and productivity.

Through Central Technologies' global distribution, Cellairis' products will be accessible to a wider audience of resellers, education technology providers, and enterprise IT departments. This partnership reflects both companies' commitment to delivering innovative, reliable solutions that extend device lifespan, improve user experience, and support distraction-free environments.
