

The Boxery Launches Sustainable Heavy-duty Corrugated Boxes to Cut Damage and Waste

The Boxery launches heavy-duty corrugated boxes designed to cut damage and support sustainable, efficient packing across demanding shipping lanes.

NY, UNITED STATES, November 29, 2025 /EINPresswire.com/ -- [The Boxery](https://www.theboxery.com/), a U.S. packaging

“

Our goal is to offer packaging that holds up in real-world conditions while helping customers streamline pack-outs, limit waste, and choose materials that align with long-term sustainability goals.”

CEO

supplier serving e-commerce, retail, and industrial shippers, announced an expanded lineup of Heavy-duty corrugated boxes designed to reduce transit damage, decrease void fill and waste, and advance recyclability objectives. The 2025 offering emphasizes double-wall protective strength, right-sized efficiency, and options compatible with recyclable, water-based barrier solutions for moisture-exposed lanes.

The Boxery’s heavy-duty corrugated selection is available now with nationwide fulfillment. Explore the category and in-stock sizes [here](https://www.theboxery.com/catalog.asp?d=105510&Name=Heavy+Duty+Boxes)

As parcel and freight networks continue to stress-test packaging, brands are prioritizing performance and sustainability without adding pack-out complexity. The Boxery’s heavy-duty assortment focuses on protective board combinations and practical size coverage to help operations lower return rates, curb dimensional weight (DIM) costs, and support circularity targets.

News highlights

- Sustainable strength: rugged double-wall constructions sized for heavy, dense, and fragile SKUs, engineered to protect through multi-touch distribution.
- Less waste, fewer fees: broad in-stock sizes for right-sized packing that cuts void fill and can help mitigate DIM surcharges.
- Recyclability first: fiber-based solutions with options for recyclable, repulpable coatings in moisture-sensitive use cases.
- Operational consistency: dependable stock availability and nationwide shipping to support multi-node fulfillment.

Why Heavy-duty corrugated boxes now

Durable, fiber-based packaging continues to play a central role in modern logistics. Corrugated recovery rates in the United States remain among the highest of any packaging material, underscoring its importance in circular systems (see American Forest & Paper Association data). At the same time, ongoing growth in online retail continues to put pressure on packaging to perform across diverse lanes and carriers (see U.S. Census Bureau e-commerce indicators).

What's in the 2025 lineup

- Protective performance: double-wall board options and reinforced formats for heavier components, equipment, and fragile goods.
- Right-sized coverage: an extensive range of stock sizes to reduce overboxing and void fill without compromising protection.
- Moisture-resistant options: select recyclable, water-based barrier choices for cold-chain adjacencies and high-humidity routes.
- Pack-out efficiency: cartons designed for consistent tape-up, stable palletization, and repeatable pack times.

Customer impact

Operations teams can use the expanded assortment to standardize SKUs across distribution centers, reduce damage-related returns, and better match cartons to product families. In many cases, right-sizing also reduces filler usage and overall material spend while keeping packages within preferred carrier-preferred dimensional profiles.

About The Boxery

The Boxery is a U.S. packaging supplier offering boxes, mailers, protective packaging, and shipping supplies for e-commerce, retail, and industrial customers. The company provides a wide in-stock assortment, responsive service, and reliable nationwide fulfillment.
