

Rochester Arthritis & Joint Pain Center Expands as Demand for Non-Surgical Joint Pain Relief Grows

Rochester Arthritis & Joint Pain Center expands to meet growing demand for non-surgical knee, hip, and shoulder pain relief for adults in the Rochester region.

FAIRPORT, NY, UNITED STATES, December 2, 2025 /EINPresswire.com/ -- [Rochester Arthritis & Joint Pain Center](#) announced today that it has expanded its appointment availability to meet the rising demand for non-surgical joint pain treatments across Monroe County and the surrounding Finger Lakes region. The clinic, known for its non surgical approach to arthritis and chronic joint pain, is experiencing record interest from adults seeking alternatives to surgery and cortisone injections.

"Our community is looking for real solutions, not temporary fixes. We're seeing more adults who want safe, effective, non-surgical care that helps them stay active without the downtime or risks of joint replacement surgery."

The center specializes in helping adults ages 50+ reduce inflammation, improve mobility, and restore comfort without surgery. This includes care for patients struggling with:

- Knee arthritis, stiffness, and swelling
- Hip pain, bursitis, and mobility loss
- Shoulder arthritis and rotator cuff irritation

Rochester Arthritis & Joint Pain Center Now Accepting New Patients

-Degenerative joint conditions related to aging

-Chronic pain that hasn't improved with physical therapy

-Pain made worse by walking, stairs, or daily activity

The increased appointment availability allows the clinic to accommodate more new patients while delivering the same high level of personalized care it is known for.

"People deserve options. Our goal is to help them understand what's causing their pain and to provide targeted treatments that support long-term joint health."

Rochester Arthritis & Joint Pain Center continues to be a leader in non-surgical joint pain care, helping individuals regain mobility, sleep better, and return to activities they once avoided due to pain.

The center is now accepting new patients
