

# Solution Dynamics Achieves SOC 2 Compliance, Reinforcing Enterprise-Grade Security Commitment

*This certification validates Solution Dynamics' ability to better serve clients with stringent regulatory and security requirements across global markets.*

AUKLAND, NEW ZEALAND, November 26, 2025 /EINPresswire.com/ -- Solution Dynamics (SDL), a leading provider of customer communications management services, today announced it has successfully achieved SOC 2 Type II compliance, demonstrating its commitment to maintaining the highest standards of data security, availability, and confidentiality.

This certification, administered by independent auditors NZ InfoSec Ltd and Accorp Partners CPA LLC validates Solution Dynamics' robust security controls and positions the company to better serve enterprise clients with stringent regulatory and security requirements across global markets.

"Achieving SOC 2 compliance represents a significant milestone in our commitment to protecting our clients' most valuable asset—their data," said Patrick Brand, Chief Executive Officer of Solution Dynamics. "Thousands of customers rely on our software, processes, and management of their mission-critical customer communications. SOC 2 certification validates our substantial investments we've made in our security infrastructure and reinforces the trust our clients place in us every day."

SOC 2 is a rigorous independent audit framework created by the American Institute of Certified Public Accountants that verifies security controls work as designed over an extended period.

#### About Solution Dynamics

For nearly 30 years, Solution Dynamics (NZX: SDL) has been a trusted partner of Global Enterprise, Government Agencies/Councils, Utilities, Financial Service Institutions and Nonprofits/NGOs.
