

StreamFab Adds Apple TV 4K HDR10 & Dolby Vision Downloads to Desktop, Launches Browser Extension

StreamFab launches a browser plugin for easy 1-click video downloads; its Apple TV downloader is the first to support 4K HDR10 & Dolby Vision.

NY, UNITED STATES, December 2, 2025

/EINPresswire.com/ -- [StreamFab](#), a

global leader in multimedia

downloading solutions, is proud to

announce two significant milestones

that further cement its position at the

forefront of the digital content

industry. This month, StreamFab is

rolling out the official release of

[StreamFab for Browser](#), a highly

anticipated browser plugin designed to deliver an unparalleled online video downloading

experience. At the same time, [StreamFab Apple TV Downloader](#) has received a groundbreaking

update, making it the first tool on the market to support direct downloads of Apple TV content in 4K HDR10 and Dolby Vision quality.

With the explosion of online streaming, users are increasingly seeking flexible and reliable ways to save videos and music for offline access. StreamFab's latest innovations meet this demand head-on, combining technical excellence with user-friendly design.

StreamFab for Browser: Seamless Video and Music Downloads with One Click

The all-new StreamFab for Browser plugin is engineered for Chrome and Edge users who want the fastest and easiest way to download videos and audio from more than 1,000 popular websites—including YouTube, Facebook, Twitter, Vimeo, and many more. The plugin allows users to save videos up to 8K UHD, HDR, and VR 360°, and to download high-fidelity audio up to 320 kbps. Smart video detection technology automatically recognizes downloadable content on a webpage, making one-click saving incredibly simple.

Additional highlights include batch downloads for entire playlists, preservation of metadata for organized libraries, ad-free content, and a streamlined interface designed for users of all experience levels. With download speeds up to 10x faster than traditional methods and support

for multiple formats (MP4, MKV, M4A, MP3), StreamFab for Browser sets a new standard for convenience and performance.

Apple TV Downloader: First-Ever Support for 4K HDR10 & Dolby Vision

Elevating the offline viewing experience, StreamFab Apple TV Downloader becomes the first in the industry to support downloads of Apple TV originals and movies in full 4K HDR10 and Dolby Vision. This breakthrough means users can archive and enjoy their favorite Apple TV content in the highest fidelity available, retaining the vivid colors, dynamic range, and immersive detail found in the original streams.

Users can now build personal collections of Apple TV movies and series, watch them anytime and anywhere—whether at home, while traveling, or in low-connectivity environments—without sacrificing audio-visual quality. The upgraded downloader is fully integrated into the existing StreamFab platform, requiring no complex setup.

Commitment to Innovation and User Experience

“StreamFab’s mission is to empower users with the freedom to access and manage digital content on their own terms,” said Erika Leen, spokesperson for StreamFab. “The introduction of our browser plugin and the industry-first Apple TV Downloader upgrade reflect our ongoing dedication to innovation, quality, and user satisfaction.”

StreamFab continues to grow its suite of solutions, delivering regular updates and expanding support for new platforms in response to evolving user needs.

About StreamFab

StreamFab is a pioneering provider of video and audio downloading solutions, trusted by millions worldwide. With a focus on security, usability, and continuous innovation, StreamFab offers versatile tools that make digital content management simple and accessible for everyone.
