

Non-Fungible Token (NFT) Robot Personality Store Market is Projected to Increase at a CAGR of 34.7% Through 2025-2029

The Business Research Company's Non-Fungible Token (NFT) Robot Personality Store Global Market Report 2025 – Market Size, Trends, And Forecast 2025-2034

LONDON, GREATER LONDON, UNITED KINGDOM, December 2, 2025

/EINPresswire.com/ -- What Is The

Projected Market Size & [Growth Rate Of The Non-Fungible Token \(NFT\) Robot Personality Store Market?](#)

The market size of the non-fungible token (NFT) robot personality store has seen remarkable growth in the past few years. It is projected to escalate from \$1.42 billion in 2024 to \$1.92 billion in 2025, with an impressive compound annual growth rate (CAGR) of 35.0%. This upsurge during the historic period is due to factors such as the surge in the attractiveness of digital collectibles, increased interest in assets based on blockchain, evolving understanding of the advantages of NFT ownership, the development of virtual economies, and the amplified acceptance of characters driven by AI.

What Is The Crucial Factor Driving The [Global Non-Fungible Token \(NFT\) Robot Personality Store Market?](#)

There is a surge in the need for personalized digital assets which is predicted to accelerate the expansion of the non-fungible token (NFT) robot personality store market in the future. Personalized digital assets are digitally crafted unique outputs that resonate with an individual's identity, likes, and activities, bringing personalized experiences by utilizing technologies like artificial intelligence and blockchain. The lure for such assets is burgeoning as developments in AI make it possible to create more realistic and adaptable digital outputs that mirror the individual user's likes. The non-fungible token (NFT) robot personality store enhances the personalized digital assets experience by enabling users to safely create, possess, and trade unique AI-enabled robot personalities that signify their individual preferences and virtual identities. For instance, in November 2024, The Financial Conduct Authority, a UK-based financial services firm, stated that consumer attitudes and activities towards crypto are shifting, with 12% of UK adults presently owning crypto assets, an increase from the previous survey's 10%. Hence, the growing intrigue in personalized digital assets is propelling the non-fungible token (NFT) robot personality store market's growth.

Who Are The Emerging Players In The Non-Fungible Token (NFT) Robot Personality Store Market?

Major players in the Non-Fungible Token (NFT) Robot Personality Store Global Market Report 2025 include:

- Styllar Inc.
- Futureverse Corporation Limited
- The Sandbox
- Unstoppable Domains Inc.
- Soul Machines Ltd.
- Vroid Studio
- Genies Inc.
- Rarible Inc.
- NFT Genius
- Good Gang Labs PTE LTD

What Are The Key Trends Shaping The Non-Fungible Token (NFT) Robot Personality Store Industry?

Leading corporations in the non-fungible token (NFT) robot persona store sector are prioritizing the development of superior technologically-equipped solutions. This is being achieved through strategic alliances aimed at strengthening personalization, enhancing compatibility across virtual settings, and bolstering user interaction. Strategic collaborations indicate alliances formed

between enterprises to merge their skills and resources to foster innovation, broaden their market footprint, and realize joint business goals. For instance, FLOKI, a digital currency company, collaborated with Rice Robotics, a robotic company based in Hong Kong, in April 2025, to unveil FLOKI Minibot M1. This AI-infused companion robot is integrated with the decentralized RICE AI protocol of Rice Robotics. The robot serves as a personal aide, proficient in handling daily tasks such as scheduling domestic services, managing shopping lists, sourcing information online, and providing companionship with functions such as storytelling, music, and conversation. The Minibot M1 evolves according to its owner's persona over time, fostering emotional bonds. The launch's distinctive feature is the debut of the \$RICE token, a utility token earned by users when they interact with the robot. The data gathered from these interactions are vital for AI training and enhancements.

What Segments Are Covered In The Non-Fungible Token (NFT) Robot Personality Store Market Report?
