

EACR Inc – Melville Expands Commercial Electronics, Solar Panel & Battery Recycling Services Across Long Island

Expanding Commercial Electronics, Solar Panel & Battery Recycling Solutions for Businesses Across Long Island and the Greater New York Area

MELVILLE, NY, UNITED STATES,
December 1, 2025 /EINPresswire.com/

-- EACR Inc – Melville is proud to announce the expansion of its commercial electronics recycling, solar panel recycling, and battery recycling services for businesses throughout Long Island and the greater New York metro region. From small offices and schools to large industrial facilities and solar developers, EACR Inc – Melville provides reliable, compliant solutions for managing end-of-life electronics and technology equipment.

EACR - Melville Electronics Recycling

As companies upgrade IT systems, expand renewable energy projects, and replace aging equipment, the volume of e-waste, solar panels, and batteries continues to grow. EACR Inc – Melville offers local organizations a trusted partner to handle these materials responsibly—helping keep hazardous components out of landfills while supporting corporate sustainability goals.

“Our mission at EACR Inc – Melville is to make responsible electronics recycling simple for local businesses,” said a representative of EACR Inc – Melville. “Whether it’s a one-time cleanout or an ongoing pickup schedule, we help organizations on Long Island manage e-waste, solar panels, and batteries in a compliant, efficient, and environmentally conscious way.”

Comprehensive Commercial Recycling Services

EACR Inc – Melville offers a broad range of business-focused recycling services, including:

Commercial Electronics Recycling for offices, schools, healthcare, and industrial facilities

Computer & Laptop Recycling for outdated desktops, towers, laptops, and workstations

Server, Network & Telecom Equipment Recycling for IT rooms and data centers

Monitor, TV & Display Recycling

Printer, Copier & Office Equipment Recycling

Solar Panel Recycling & Solar Equipment Disposal for commercial projects and installers

Battery Recycling including lithium-ion, rechargeable, UPS, and equipment batteries

Bulk E-Waste Pickup & On-Site Collection for larger volumes of material

By focusing on on-site pickup, palletized loads, and scheduled collection, EACR Inc – Melville helps businesses complete technology refreshes, facility cleanouts, and decommissioning projects with minimal disruption.

Compliance, Security & Sustainability

EACR Inc – Melville emphasizes compliant, approved electronics recycling practices that align with applicable regulations. The company prioritizes responsible downstream handling of equipment and components, supporting customers' environmental, ESG, and sustainability initiatives.

EACR Inc – Melville's services help business clients:

Reduce landfill impact from obsolete electronics and solar equipment

Manage materials such as metals, plastics, glass, and circuitry responsibly

Support internal green policies, sustainability reporting, and corporate social responsibility programs

Serving Melville, Long Island & the Greater New York Area

From its Melville location, EACR Inc supports businesses across Suffolk County, Nassau County, and surrounding New York communities, including Melville, Huntington, Farmingdale, Hauppauge, Bethpage, and beyond. The company works with office parks, corporate campuses, warehouses, manufacturers, schools, and solar industry partners that need dependable electronics recycling, solar panel recycling, and battery recycling solutions.

“Businesses on Long Island know that how they handle old technology matters,” the representative added. “We’re here in Melville to give them a convenient, local option for compliant electronics recycling and reliable pickup services.”

About EACR Inc – Melville

EACR Inc - Melville
105 Maxess Rd Suite S124, Melville, NY 11747
