

Restructure Partners Announces New National Small Business Restructuring Support Program

Restructure Partners Announces New National Small Business Restructuring Support Program

SYDNEY, NSW, AUSTRALIA, December 1, 2025 /EINPresswire.com/ -- Helping Australian SMEs Avoid Liquidation Through Early Intervention, [Tax Debt Relief](#), and Expert Restructuring Advice

Restructure Partners, a leading Australian business restructuring advisory firm, today announced the launch of its National Small Business Restructuring Support Program, a new initiative designed to help financially distressed small businesses avoid liquidation and regain long-term stability.

The program provides free restructuring assessments, tax debt relief guidance, and tailored [Small Business Restructure](#) (SBR) solutions, responding to the sharp rise in ATO enforcement activities and Director Penalty Notices (DPNs) issued to company directors across Australia.

A Timely Initiative Amid Rising ATO Pressure

With the Australian Tax Office significantly increasing debt collection activity since 2023—particularly around GST, PAYG, and superannuation liabilities—small businesses are experiencing unprecedented financial pressure. Many SMEs remain unaware that restructuring is often a viable alternative to liquidation, especially under the government's SBR framework.

"Small businesses are the backbone of the Australian economy, but many owners don't realise they have options long before liquidation becomes necessary," said a spokesperson for Restructure Partners. "Our new national program gives business owners accessible, expert support at the exact time they need it most. Early intervention can save companies, jobs, and

livelihoods.”

Free National Assessment for Struggling SMEs

As part of the new initiative, Restructure Partners will offer free confidential assessments to help business owners understand:

Whether they qualify for the Small Business Restructure (SBR) program

Options for reducing or reorganising tax debt

How to navigate ATO payment plan failures

The impact and risks associated with Director Penalty Notices

Whether restructuring can preserve trading operations and avoid liquidation

This diagnostic approach enables directors to make informed decisions quickly—often within 48 hours.

A Smarter, More Supportive Alternative to Liquidation

The SBR program, introduced by the Australian Government, allows eligible businesses with liabilities under \$1 million to restructure their debts while continuing to trade. Restructure Partners’ new initiative aims to increase awareness and accessibility of this powerful tool.

“At a time when more than 10,000 Australian companies are failing each year, SBR remains underutilised,” the spokesperson added. “Many directors only hear about liquidation, but there are smarter alternatives. We want to close that knowledge gap and provide clear, practical pathways to recovery.”

Nationwide Availability

The National Small Business Restructuring Support Program is now open to SMEs across:

New South Wales

Victoria

Queensland

South Australia

Western Australia

Tasmania

ACT & Northern Territory

Businesses can book a free consultation via the company's website or by calling 0468 061 936.
