/EINPresswire.com/ -- How Large Will

The Systems, Applications, And

Products In Data Processing-High-Performance Analytic Appliance (SAP HANA) Consulting Service Market Be By 2025?

The Business
Research Company

The Business Research Company

“

It will grow to \$15.79 billion in 2029 at a compound annual growth rate (CAGR) of 12.9%.”

*The Business Research
Company*

The market for consulting services in systems, applications, and products in data processing-high-performance analytic appliance (SAP HANA) has seen rapid expansion in recent years. Its size is projected to increase from \$8.60 billion in 2024 to \$9.73 billion in 2025, with a compound annual growth rate (CAGR) of 13.2%. The significant growth during the historic period can be credited to factors such as the heightened adoption of in-memory computing, surging demand for real-time analytics, the prevalence of digital transformation initiatives within enterprises, growing cloud infrastructure,

and the increasing requirement for modernizing databases.

Anticipated to exhibit swift expansion in the coming years, the market size of systems, applications, and products in data processing-high-performance analytic appliance (SAP HANA) consulting service is predicted to reach \$15.79 billion by 2029, with a compound annual growth rate of 12.9%. Factors contributing to the growth spectrum in the predicted period include the escalating demand for hybrid cloud solutions, the increasing necessity for scalable data management, the broadening adoption of the SAP ecosystem, as well as the rising emphasis on business process automation. Key trends in the predicted period encompass advancements in in-memory computing technology, AI and predictive analytics innovations, progress in cloud-

native SAP HANA solutions, R&D in data security and governance, coupled with improvements in real-time data processing.

What Are The Major Driving Forces Influencing The Systems, Applications, And Products In Data Processing-High-Performance Analytic Appliance (SAP HANA) Consulting Service Market Landscape?

The systems, applications, and products in data processing-high-performance analytic appliance (SAP HANA) consulting service market is poised for growth, driven by an increase in digital transformation initiatives. This refers to the introduction of digital technologies to enhance business processes, customer experiences and ignite innovation throughout the organization. The demand for digital transformation is escalating in order to deliver rapid, personalized and seamless customer experiences, essential in maintaining competitive advantage. SAP HANA consulting services support this transformation by offering real-time data analytics and sophisticated automation features. They increase operational effectiveness by consolidating vital business functions, enabling organizations to make informed decisions based on data, and fine-tuning their processes for growth and flexibility. For example, in July 2024, the Office for National Statistics, a UK-based government agency, reported a \$535 million (£434 million) investment in the digital infrastructure program by 2022, and an additional \$907 million (£736 million) set for 2023 to 2025. Hence, the upswing in digital transformation initiatives is fueling the growth of the systems, applications, and products in data processing-high-performance analytic appliance (SAP HANA) consulting service market.

Who Are The Top Players In The Systems, Applications, And Products In Data Processing-High-Performance Analytic Appliance (SAP HANA) Consulting Service Market?

Major players in the Systems, Applications, And Products In Data Processing-High-Performance Analytic Appliance (SAP HANA) Consulting Service Global Market Report 2025 include:

- Deloitte Touche Tohmatsu Limited
- Accenture plc
- International Business Machines Corporation (IBM)
- SAP SE
- Hewlett Packard Enterprise Company
- Tata Consultancy Services Limited
- Capgemini SE
- Cognizant Technology Solutions
- Infosys Limited
- Wipro Limited

What Are The Main Trends, Positively Impacting The Growth Of Systems, Applications, And Products In Data Processing-High-Performance Analytic Appliance (SAP HANA) Consulting Service

Market?

Main players in the Systems, Applications, and Products in Data Processing-High-Performance Analytic Appliance (SAP HANA) consulting service sector are concentrating their efforts on the creation of inclusive managed service solutions. These solutions, such as integrated finance platforms, aim to amplify operational effectiveness, enforce compliance, and offer constant, data-focused insights. Integrated finance platforms essentially merge various financial procedures like accounting, treasury, financial planning, and reporting within a single system. For example, in May 2025, Ernst & Young, an esteemed UK-based professional services entity, unveiled their Integrated Finance Managed Service solution. This solution combines the functionality of SAP S/4HANA Cloud with the profound domain and industry knowledge of the EY organization in a broader range of financial operations. Moreover, it also benefits from the company's long-established history of assisting rapidly growing businesses in generating value and solidifying trust with stakeholders, regulatory authorities, and their clientele. The aim of this product is to support clients in simplifying their financial operations by utilizing advanced automation, analytics, and a delivery model.

Market Share And Forecast By Segment In The Global Systems, Applications, And Products In Data Processing-High-Performance Analytic Appliance (SAP HANA) Consulting Service Market
The systems, applications, and products in data processing-high-performance analytic appliance (sap hana) consulting service market covered in this report is segmented –

- 1) By Service Type: Consulting Services, Implementation Services, Support And Maintenance Services, Training And Education Services, Managed Services
- 2) By Deployment Type: On-Premise, Cloud-Based
- 3) By Company Size: Small Enterprises, Medium Enterprises, Large Corporations, Multinational Corporations
- 4) By Application: Data Management, Analytics And Business Intelligence, Application Development, Data Integration and Migration, Cloud Solutions, Real-time Processing
- 5) By Industry-Based: Manufacturing, Retail, Financial Services, Healthcare, Telecommunications, Energy And Utilities, Government, Education

Subsegments:

- 1) By Consulting Services: Strategic Advisory, System Architecture Design, Data Strategy Development, Business Process Optimization, Performance Assessment
- 2) By Implementation Services: System Configuration, Data Migration, Application Integration, Custom Development, Deployment Management
- 3) By Support And Maintenance Services: System Monitoring, Performance Tuning, Troubleshooting And Issue Resolution, Version Upgrades, Continuous Optimization
- 4) By Training And Education Services: End-User Training, Technical Skill Development, Administrator Certification Programs, Knowledge Transfer Workshops, Customized Learning Modules
- 5) By Managed Services: Remote System Management, Cloud Infrastructure Administration, Data Security Management, Backup And Recovery Services, Continuous System Optimization
