Meet Crash, Belle, Carol, Thor, and Joy, the happy, exuberant Loud children who fill every moment with laughter and song. But the other families in their quiet mountain village don't understand them. The Loud children are left out and misunderstood until a crisis brings the community together. When little Johnny Thompson gets lost in the snowy woods, only this spirited family has the determination needed to bring him safely home.

Schisler revealed that the inspiration for the story came from a memorable family vacation years ago. During a dinner stop, she and her children were repeatedly told they were "too loud," a moment that sparked her imagination and planted the seed for a tale about joyful children whose enthusiasm becomes their superpower.

"We were just enjoying ourselves," Schisler explains. "My children were in middle and high school

at the time, and we were just having a good time. This story has been on my mind for 10-15 years. I thought it would be fun to write about a family of loud children who ultimately save the day."

As both a mother and a Catholic writer, Schisler strives to create stories that offer hope and the reminder that every person has inherent value. "If you don't see the books you'd like to read, write them yourself," she adds.

In *A Very Loud Christmas*, Schisler seeks to encourage children to embrace what makes them unique and to appreciate the differences in everyone.

"This is a story about acceptance and recognizing that there will always be people who are misjudged," Schisler concludes. "Be you and be authentic. You were created with purpose."

### Readers Shout About *A Very Loud Christmas*
