

Village Hall by Youpei Hu Wins Silver in A' Architecture Awards

Innovative Public Multifunctional Building Design Recognized for Excellence by Prestigious A' Architecture, Building and Structure Design Award

COMO, CO, ITALY, December 5, 2025 /EINPresswire.com/ -- The esteemed A' [Design Award](#), one of the world's most respected and well-recognized awards in the field of [architecture](#) design, has announced [Youpei Hu](#)'s innovative work, "Village Hall," as a Silver winner in the Architecture, Building and Structure Design category. This prestigious recognition highlights the exceptional design and significance of Village Hall within the architecture industry.

Village Hall's recognition by the A' Architecture, Building and Structure

Design Award underscores its relevance to current trends and needs within the industry. The design aligns with and advances architecture standards and practices, offering practical benefits for users, the industry, and other stakeholders through its innovative approach to functionality and aesthetics.

The award-winning Village Hall design stands out for its intentional avoidance of vernacular architectural style, instead applying modern materials and structure. The building's defining feature is a large floating roof that unifies formal and informal spaces in a simple, umbrella-like manner. To achieve the desired sense of lightness and floating, the steel roof employs several structural innovations, including a hybrid structure mimicking umbrella cantilevers, overcoming the challenges of large spans and cantilevers while maintaining slender members.

The Silver A' Design Award for Village Hall serves as motivation for Youpei Hu and their team to
