

# Travel Vaccines Market is Projected to Increase at a CAGR of 9.6% Through 2025-2029

*The Business Research Company's Travel Vaccines Global Market Report 2025 – Market Size, Trends, And Forecast 2025-2034*

LONDON, GREATER LONDON, UNITED KINGDOM, December 9, 2025

/EINPresswire.com/ -- What Is The Projected Market Size & Growth Rate Of The [Travel Vaccines Market](#)?

In the past few years, there has been a marked expansion in the market size of travel vaccines. The market, which is valued at \$4.73 billion in 2024, is anticipated to rise to \$5.09 billion in 2025, reflecting a Compound Annual Growth Rate (CAGR) of 7.6%. The historical growth of the market has been driven by factors such as an upsurge in international travel, governmental health measures for travelers, the worldwide spread of diseases, an increase in traveler awareness, and the growth of the travel and tourism industry.

Anticipations indicate that there will be significant expansion in the travel vaccines market in the upcoming years. The market is expected to reach a total value of \$7.36 billion in 2029, growing at a compound annual growth rate (CAGR) of 9.6%. The predicted growth during the forecasting period is attributed to the increased rate of business travel, the emergence of infectious diseases, governmental rules and entrance requirements, the mounting demand for unusual travel destinations, and partnerships between government bodies and pharmaceutical firms. Expected trends during the prediction phase includes customized vaccine strategies, market extension to non-endemic regions, use of digital health technology, regulatory backing, rapid approvals, and inventive advancements.

geographical locations. Travel vaccines are beneficial for tourists and travelers, safeguarding their health and well-being during overseas trips. For example, in January 2023, the United Nations World Tourism Organization (UNWTO), an intergovernmental body promoting tourism based in Spain, reported that over 900 million tourists ventured overseas in 2022, twice the figure of 2021 and still 63% above pre-pandemic levels. Thus, the uptick in travel and tourism is fueling the expansion of the travel vaccine market.

#### Who Are The Emerging Players In The Travel Vaccines Market?

Major players in the Travel Vaccines include:

- Pfizer Inc.
- Johnson and Johnson
- Merck & Co. Inc.
- Sanofi SA
- GlaxoSmithKline plc
- Biological E. Limited
- Takeda Pharmaceutical Company Limited
- Novavax Inc.
- Emergent BioSolutions UK
- Serum Institute of India Pvt. Ltd.

#### What Are The Future Trends Of The Travel Vaccines Market?

In the travel vaccine market, a leading trend is that of product innovation. Major industry players are creating groundbreaking vaccines to maintain their competitiveness. In a notable example from August 2022, Takeda Pharmaceutical Company Limited, a Japanese pharmaceutical firm, received approval for QDENGGA (Dengue Tetravalent Vaccine) (TAK-003), from the Indonesia National Agency for Drug and Food Control. This vaccine is aimed at preventing dengue disease caused by any serotype in people aged six to 45. The efficacy of QDENGGA, which continued to offer overall protection against dengue and related hospitalization three years after vaccination, proved to be unaffected by previous exposure to the disease.
