What Are The Current Leading Growth Drivers For Antacids Market?

The Business
Research Company

The Business Research Company

The increased occurrence of acidity due to unhealthy lifestyle decisions is a major force pushing the expansion of the antacids market. Unhealthy lifestyles include sedentary work environments, low-quality sleep, and inconsistent eating schedules, all of which can elevate stomach acidity levels, causing gastroesophageal reflux disease. As per the American College of Gastroenterology, approximately 60 million Americans are affected by gastroesophageal reflux disease. This propels the need for antacids.
