urbanization, a rising number of overweight people, and the growing preference for noninvasive and minimally invasive aesthetic procedures have contributed to the growth observed during the historic period.

The market size of aesthetic medicine is anticipated to witness a robust growth in the upcoming years, reaching ""\$102.34 billion in 2029 with a Compound Annual Growth Rate (CAGR) of 8.6%. Numerous factors such as a rising

elderly population, rapid urbanization, and an increase in disposable income, are particularly driving this growth in the forecast period. Moreover, significant mergers and acquisitions are also contributing to its expansion. Noteworthy developments projected for the forecast period involve advancements in product invention, the implementation of artificial intelligence within aesthetic procedures, the evolution of focal radio frequency technology, widespread use of laser-assisted liposuction, as well as meaningful partnerships and collaborations.

What Are The Major Factors Driving The Aesthetic Medicine Global Market Growth?

The worldwide increase in obesity is anticipated to boost the aesthetic medicine market's

The Business
Research Company

The Business Research Company

expansion. The surge in unhealthy eating habits, deprivation of physical exercise, and prenatal & antenatal impacts are escalating the global obesity rate rapidly. Obese individuals turn to aesthetic medicine for fat removal, meso/face-lifts, among other perks via both invasive and non-invasive methods. For instance, the Government Digital Service, a UK government entity, reported in May 2023 that the rate of obesity in England had risen from 25.2% to 25.9% in adults (18 and over) in 2022-2023. Consequently, the rising global obesity prevalence is predicted to stimulate the growth of the aesthetic medicine market.

Who Are The Leading Companies In The Aesthetic Medicine Market?

Major players in the Aesthetic Medicine include:

- AbbVie
- Johnson & Johnson
- Galderma
- Bausch Health
- Shanghai Fosun Pharmaceutical Co
- Cynosure
- El.En. S.p.A
- Cutera
- Merz Pharma
- Syneron Candela

What Are Some Emerging Trends In The Aesthetic Medicine Market?

Firms within the aesthetic medicine industry are concentrating on product enhancements and the creation of new items to consolidate their market presence. As a case in point, Lumenis, an energy-based medical device firm from Israel for aesthetic, surgical, and ophthalmic uses took its Splendor X device to the UK market in January 2022. This device runs on BLEND X technology, which uses a binary laser emission of Nd: YAG (neodymium-doped yttrium aluminum garnet; Nd: Y3Al5O12) (1064 nm) and Alexandrite (755 nm) wavelengths in adjustable and synchronised proportions. It is designed to be compatible with all Fitzpatrick skin types and is usable by both genders. The device is versatile enough to be applied to any bodily region including the face, bikini area, legs, arms, stomach, and underarms.
