

Sofema Online Announces 20% Discount on All Diploma Programs for December

Sofema Online Announces 20% Discount on All Diploma Programs for December

SOFIA, BULGARIA, December 8, 2025 /EINPresswire.com/ -- [Sofema Online](#) (SOL) has announced a 20% discount on all Sofema Online Diploma Programs, available throughout December. The offer provides an opportunity for aviation professionals to expand their knowledge and strengthen their vocational competence.

Structured Learning for Professional Development

SOL Diploma Programs serve as organized learning paths designed to support aviation personnel in progressing from basic regulatory awareness to applied vocational capability. Each diploma groups 5 to more than 15 related courses into a single curriculum. This structure enables participants to move beyond meeting minimum compliance expectations and work toward a broader understanding of their specific operational area, including CAMO, Quality Assurance, or Maintenance Management.

Industry Relevance and Career Impact

The purpose of each [Learning Path Diploma](#) is to support competence building and career progression.

Professional commitment: Completing a self-paced, multi-course program within the typical 15-month access period demonstrates consistent engagement and a rounded understanding of the covered subjects.

Standardized knowledge: Diplomas help establish consistent vocational knowledge within the

EASA environment. Roles such as Quality Manager or CAMO Engineer benefit from structured exposure to applicable regulatory areas, including Part M, Part 145, Safety Management Systems, and Root Cause Analysis.

Cost efficiency: By combining related training modules, the diploma format provides a lower overall cost compared with purchasing courses individually.

Program Structure and Certification

Participants complete each course within the designated learning path one by one. Every module includes a multiple-choice assessment, and a certificate is issued upon successful completion. After all modules in the path are completed, the participant receives the Sofema Online Learning Path Diploma.

[Diploma Categories](#)
