Oakbend Marina Evolvere opens its 40th location in Dania Beach, FL, offering professional boat and RV consignment with a 7-Day Money-Back Guarantee.

DANIA BEACH, FL, UNITED STATES, December 8, 2025 /EINPresswire.com/ -- [Oakbend Marina Evolvere](#) is pleased to announce the official opening of its newest branch in Dania Beach, Florida. This launch marks a significant milestone for the company, serving as its 40th location in the United States and further solidifying its position as a national leader in the marine and automotive consignment sectors.

The new Dania Beach facility is designed to serve the region's robust boating and automotive community, providing a centralized hub for the consignment and sale of pre-owned vessels, recreational vehicles, and heavy equipment. By integrating local market insights with a national sales network, the company aims to offer streamlined, transparent transactions for both private sellers and buyers across the Sunshine State.

A Strategic Expansion into South Florida

The selection of Dania Beach—often recognized as a premier hub for marine commerce—was a strategic decision to align with the area's dynamic nautical culture. As the demand for pre-owned vessels and recreational vehicles continues to surge in post-pandemic markets, Oakbend Marina Evolvere's entry into Dania Beach addresses a critical need for professional, secure, and efficient sales channels.

"Opening our 40th location in Dania Beach is a landmark achievement for our team and a testament to the trust our customers place in us," said Alex Oakbend, Owner of Oakbend Marina Evolvere. "South Florida is the heartbeat of the boating world. Establishing a physical presence

"We focus on removing the friction and risk often associated with private sales," added Oakbend. "Our goal is to provide a seamless experience where sellers can trust that their assets are being marketed effectively, and buyers can have confidence in the quality of their purchase. We handle the tire-kickers, the paperwork, and the logistics so our clients don't have to."
