YRC understands that old logistics practices degrade profit margins and drive down customer satisfaction. Through Signavio supply chain modeling, YRC assists retailers to re-design their logistics operations to be more nimble and cost effective.

“Retailers need logistics solutions to react as quickly to

their customers” states YRC Founder, Nikhil Agarwal. “We take Signavio process intelligence to the ground and use it to deliver retail networks that can respond to their customers in real-time.”

YRC is a leading provider of retail logistics solutions, helping retailers optimize their supply chain and improve customer satisfaction.

The company's focus is on end-to-end visibility, workflow automation, and efficient logistics

resourcing. With the help of process intelligence retail tools, YRC is able to identify bottlenecks and improve delivery processes.

Rupal Agarwal, Co-founder of YRC, says: "We're allowing our retailers to meet logistical complexity head-on, all while allowing their teams to focus on being, well, teams. With our logistics transformation model, we're providing a cost-efficient solution that enhances operations and customer satisfaction."

This model combines process excellence with technology, optimizing logistics in retail.

- > End-to-end supply chain visibility through the use of Signavio's dashboards.
- > Optimized delivery routes using data-driven modeling and model routes, which lead to less lead time.
- > Real-time tracking of performance metrics, gauging and capable of performance improvements
- > Ease of communication for suppliers, warehouses, and retail stores, and their skill sets.

Retailers can now take logistics from cost concept to competitive advantage with these.

Today's retail operations are measured by speed, accuracy, and flexibility. YRC's logistics solutions put retailers on track to regularly fulfill these parameters. With retail operations efficiency solutions, YRC eliminates redundancy, improves communication and provides a faster response to ongoing market changes.
