

# Breezy Med and Lovell Partner to Expand Access to Automated aHP Bio-Decontamination in Federal Healthcare

PENSACOLA, FL, UNITED STATES, December 10, 2025 /EINPresswire.com/ -- Lovell® Government

Services and Breezy Med, a hospital automation company specializing in whole-room bio-decontamination, announced today a strategic partnership to expand access to Breezy Med's automated aerosolized hydrogen peroxide (aHP) disinfection systems across federal healthcare

This partnership brings cost-effective, next-generation infection-prevention tools to VA hospitals and supports the mission of keeping Veterans safe and well."

*Chris Lovell, CEO of Lovell Government Services.*

systems including the Veterans Health Administration (VHA), the Military Health System (MHS), and the Indian Health Service (IHS). Lovell Government Services will serve as Breezy Med's Service-Disabled Veteran-Owned Small Business (SDVOSB) vendor to enable efficient procurement and onboarding through federal contracting systems.

Breezy Med offers a suite of automated disinfection and automation technologies—including the Breezy Full Bundle, a comprehensive single-purchase package covering all equipment, a 5-year warranty, and advanced

perpetual Breezy Cloud licensing, along with its EPA-registered disinfectants HaloSpray™ and BioPure™. These solutions provide hospitals with whole-room coverage, high-level efficacy, measurable compliance, and lower operating costs with significantly less labor.

As Breezy Med's SDVOSB vendor, Lovell is excited to bring this next generation of infection-prevention technology to VA and DoD healthcare providers. Breezy Med products are being added to Lovell's Federal Supply Schedule (FSS) contract, with activation expected in 30–60 days. The products are also being added to other Lovell contract vehicles, including GSA Advantage, DLA ECAT, and DoD DAPA. This designation streamlines the acquisition process while helping federal healthcare agencies meet SDVOSB procurement goals. Initial sales outreach will focus on VA hospitals, which rely heavily on the FSS for procurement.

"We are proud to bring our SDVOSB contracting capabilities to help expand access to Breezy Med's automated aHP technology. This partnership brings cost-effective, next-generation infection-prevention tools to VA hospitals and supports the mission of keeping Veterans safe and well," said Chris Lovell, Major, USMC (Ret.), CEO of Lovell Government Services.

"We're excited to partner with Lovell to bring our leading-edge aHP technology to VA hospitals. Federal healthcare facilities face growing pressure to do more with less, and Breezy Med's automated systems deliver more thorough infection prevention with less labor and lower cost. With Lovell, we can now extend the same benefits already seen in non-federal hospitals to the facilities that serve our nation's Veterans," said Chris Ziomek (CEO, Breezy Med).

#### About Breezy Med

Breezy Med is a hospital automation company delivering smart whole-room bio-decontamination technologies to improve infection prevention while reducing labor and cost. Its Breezy Blue® platform integrates automated aerosolized hydrogen peroxide (aHP) disinfection, cloud-based compliance analytics, and optional RTLS-driven workflow automation to help hospitals achieve safer, more efficient operations. Breezy Med solutions are broadly adopted in non-federal hospitals and are now expanding into federal healthcare through this partnership.

The graphic features the Breezy Med logo (a stylized 'b' with a gear) and the Lovell Government Services logo (a red shield with a white 'L'). A circular seal with a laurel wreath border contains the text "SDVOSB" and "Service Disabled Veteran Owned Small Business". Below the logos is a photograph of a Breezy Blue decontamination unit, which is a black, cylindrical device with a white top and a blue light strip at the bottom. A dark blue banner at the bottom of the graphic contains the text: "Breezy Med and Lovell Announce Partnership to Increase Access to Automated aHP Decontamination Systems for VA, DoD, and IHS".
