

Robotics Process Automation Companies Now Offered by Business Process Xperts Across Global Markets

Market-leading business process consulting firm, BPX, confidently announces its global expansion into Robotics Process Automation (RPA) solutions.

PUNE, MAHARASHTRA, INDIA,
December 10, 2025 /

EINPresswire.com/ -- Offering end-to-end automation solutions to clients from a range of industries around the globe, this strategic move positions BPX among the most agile and customer-centric RPA companies.

BPX is now assisting businesses to automate dull tasks simply and understandably with intelligence, as global demand for RPA solutions that simplify processes, reduce human errors, and enhance productivity increases. With tailor-made automation systems, the company's new RPA division is set to assist businesses in banking, manufacturing, shipping, e-commerce, and other industries.

BPX is offering a complete spectrum of services in the form of this global expansion, ranging from RPA consultancy and process discovery to bot development, deployment, and

maintenance, thus helping organizations unleash productivity at scale.

"What we have always believed is that great businesses are fueled by great processes," said Nikhil Agarwal, founder of Business Process Xperts. "With our RPA service now extendable

globally, we are assisting customers not just enhance the processes they have in place today, but completely reimagine them through automation."

Deep process analysis begins BPX's methodology of [Business Process Xperts' Deep Process Analysis](#) in assisting customers to identify tasks that are ready to be automated. BPX designs intelligent automation robots that accurately and quickly mimic human actions in order management, data extraction, invoice processing, or HR processes.

Highlighting BPX's customer-centric focus that "Our RPA solutions are designed to meet each client's distinct environment", Rupal Agarwal, co-founder of BPX, says, "One-size-fits-all automation is not for us. Our expertise is providing real business impact by pairing contemporary RPA technologies with comprehensive process acumen."

BPX is unique from other RPA companies in that it targets processes first. With over a decade of experience in BPM (Business Process Management) and SOP (Standard Operating Procedure) development, BPX ensures that not only is automation applied but also optimized to its entire potential. Each RPA project is aligned to more overall corporate goals, such as improved compliance, reduced turnaround time, and optimal return on investment.

BPX is incorporating artificial intelligence and machine learning elements along with traditional RPA offerings to facilitate intelligent automation. These advanced bots are able to learn from information, make rule-based decisions, and adapt to evolving corporate settings.

BPX is already serving clients utilizing both on-premise and remote delivery frameworks from India to the UAE, Europe to the Americas. With dedicated RPA consultants and developers on board, the company is poised to expand globally and become a go-to [Business Process Xperts' Global Expansion](#) for forward-thinking businesses.
