Launches the [PuroGamer-BT](#): A Next-
Generation Volume-Limiting Gaming
Headset Designed to Protect Hearing
Without Compromise

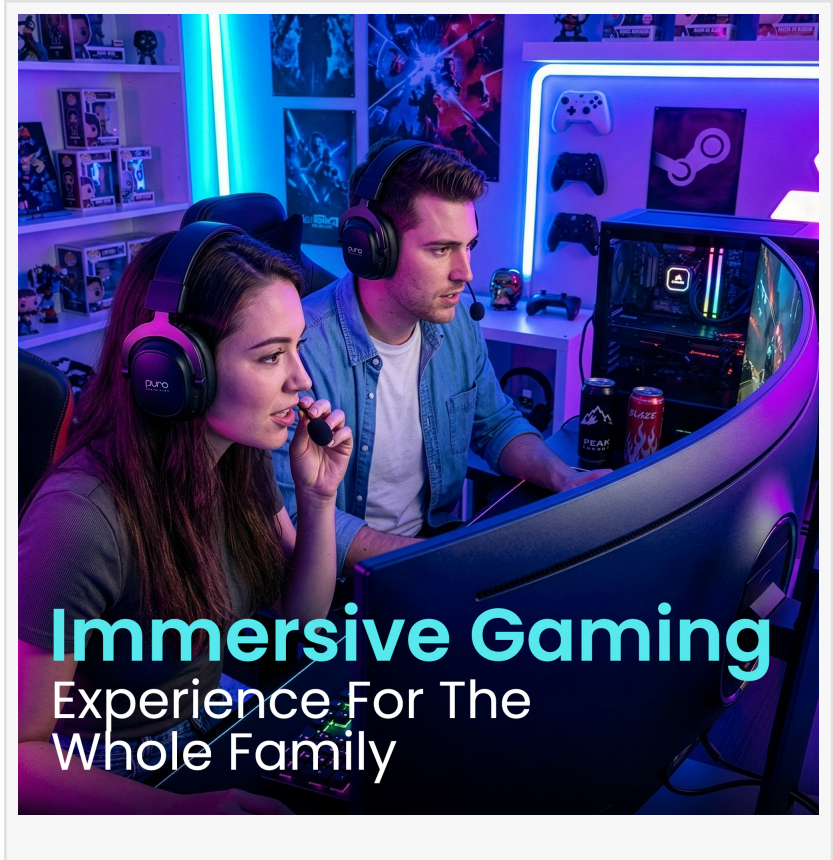

Premium, Comfortable, and Safer
Hearing Audio Designed for Gamers of
All Ages

Puro Sound Labs, the leader in premium safer-listening audio technology, today announced the release of the [PuroGamer-BT](#), a next-generation volume-limiting gaming headset engineered to deliver exceptional sound performance while protecting users from noise-induced hearing loss (NIHL). With advanced health-focused features and cutting-edge connectivity, the PuroGamer-BT enters the market as a powerful solution to one of today's most overlooked public health issues.

"With the global gaming market exploding, hearing safety can't be an afterthought. The PuroGamer-BT represents more than a product—it represents our mission to help protect hearing without sacrificing performance," said the company.

A Growing Global Health Crisis

The World Health Organization (WHO) estimates that over 1.1 billion young people worldwide are at risk of permanent hearing damage due to unsafe listening practices. In the United States,

nearly 30 million people regularly face harmful noise exposure. Research shows that 60% of childhood hearing loss is preventable, with volume-limiting headphones—capping audio at or below 85 decibels—being one of the simplest and most effective ways to reduce long-term risk.

Why It Matters: The Hidden Impact of Hearing Loss

Hearing loss affects far more than media enjoyment. Even mild impairment can hinder academic development, including language acquisition, reading comprehension, and classroom engagement. Socially, individuals may struggle to communicate with peers, participate in group activities, and respond to everyday sounds that signal safety and awareness.

Introducing the PuroGamer-BT

Designed for gamers who want both performance and protection, the

PuroGamer-BT delivers a feature set engineered for long, safe, and immersive gameplay:

- Volume-Limiting Technology: Caps sound at 85 dB following global health recommendations.
- Tri-Mode Connectivity: Switch between wireless, 2.4 GHz USB wireless, and USB-C wired connections.
- 360° Omnidirectional Microphone: Detachable mic with clear, focused communication.
- Premium 53mm Drivers: Rich detail, deep bass, and full environmental immersion thanks to the Puro Balanced Response Sound Curve.
- 32-Hour Battery Life: Long sessions with minimal interruptions.
- Comfort-Optimized Design: Breathable ear cushions and padded headband.
- One-Year Warranty: No-questions-asked warranty emphasizing reliability.

Availability

The PuroGamer-BT is now available for \$99 at www.purosound.com.
